—— Observations des planètes (249), (250), (251) et de la Comète Brooks, faites à l'Observatoire de Paris. Bull. Astr., 2, **1885**, 566–568.

—— Observation de la Comète d'Encke, faite à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 100, **1885**, 95, 335–336.

—— Observations de la nouvelle planète (246) Borrelly, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 100, **1885**, 896–897.

—— Observations de la nouvelle planète (248) Palisa, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 100, **1885**, 1490–1491.

—— Observations de la nouvelle Comète Barnard, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 101, **1885**, 149–150, 1236; Bull. Astr., 2, **1885**, 378–380.

—— Observations de la nouvelle planète (249), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 101, **1885**, 501–502.

—— Sur les changements récents survenus dans la nébuleuse d'Andromède. Paris, Ac. Sci. C. R., 101, **1885**, 559–560.

—— Observations de la nouvelle Comète Brooks et de la nouvelle planète (250), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 101, **1885**, 560–561.

—— Sur l'étoile nouvelle de la nébuleuse d'Andromède. Observations de la Comète Brooks, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 101, **1885**, 596–597.

—— Observations de la nouvelle planète (251) Palisa, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 101, **1885**, 696–697.

—— Instructions sur l'usage de l'équatorial et sur la réduction des observations, suivies de tables et de diagrammes propres à faciliter la préparation et la réduction des observations équatoriales. [1893.] Paris Obs. Ann. (*Obsns.*), **1885**, G. 208 pp.

—— Observations de la Comète Fabry et des petites planètes (181), (254), (258) et (259), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de $0^m,31$ d'ouverture). Bull. Astr., 3, **1886**, 493–495.

—— Observations de la Comète Barnard (1886 II), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, ouverture $0^m,305$). Bull. Astr., 3, **1886**, 584–586.

—— Observations de la nouvelle Comète Brooks, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 102, **1886**, 100–101.

—— Observations de la nouvelle planète (254), faites à l'Observatoire de Paris. Paris, Ac. Sci. C. R., 102, **1886**, 804–805.

—— Observations de la nouvelle Comète *a* 1886 (Brooks I), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 102, **1886**, 1008–1009.

—— Observations de la Comète *b* 1886 (Brooks II) et de la nouvelle planète (258) (Luther), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 102, **1886**, 1051–1052.

—— Observations de la nouvelle planète (259), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 103, **1886**, 32.

—— Observations de la nouvelle planète (261), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 103, **1886**, 861.

—— Histoire de l'astronomie à Toulouse, de l'origine à la fondation de l'Observatoire actuel. Toulouse Obs. Ann., 2, **1886**, A. 1–A. 47.

—— Histoire des observatoires de l'École Militaire. Bull. Astr., 4, **1887**, 497–504; 5, **1888**, 30–40.

—— Observations des nouvelles Comètes Brooks et Barnard, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 104, **1887**, 276–277.

—— Observations de la nouvelle Comète Barnard (*d* 1887) et de la nouvelle planète (265) Palisa, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 104, **1887**, 559–560.

—— Observations de la nouvelle Comète Barnard (*e* 1887), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 104, **1887**, 1360.

—— Sur la réduction de la distance apparente de deux astres voisins, à leur distance moyenne d'une époque donnée. Paris, Ac. Sci. C. R., 105, **1887**, 606–608.

—— Observations de la nouvelle planète (270) Peters, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 105, **1887**, 658–659.

—— Nébuleuses nouvelles, découvertes à l'Observatoire de Paris. Paris, Ac. Sci. C. R., 105, **1887**, 926–929, 1116–1119.

—— Observation de la Comète *a* [Sawerthal] 1888, faite à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 106, **1888**, 919, 1060–1061.

—— Sur une disposition qui permettrait l'emploi de puissants objectifs dans les observations méridiennes. Paris, Ac. Sci. C. R., 106, **1888**, 998–1000.

—— Sur les variations de l'équation personnelle dans les mesures d'étoiles doubles. Paris, Ac. Sci. C. R., 106, **1888**, 1645–1646.

—— Observations de la nouvelle Comète Brooks, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 107, **1888**, 419–420.

—— Observations de la nouvelle Comète Barnard, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 107, **1888**, 495.

—— Observations de la nouvelle Comète Barnard (1888 oct. 30) et de la nouvelle planète (281) Palisa, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 107, **1888**, 721–722.

—— Observations de la nouvelle Comète Barnard *a* 1889 (1889 mars 31), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 108, **1889**, 847–848.

—— Sur l'aspect et sur un compagnon de la Comète Brooks (6 juillet 1889). Paris, Ac. Sci. C. R., 109, **1889**, 401–402.

—— Observations de la nouvelle Comète Swift (*f* 1889; nov. 17), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 109, **1889**, 791–792; Astr. Nachr., 123, **1890**, 141–142.

—— Observations de la nouvelle Comète Borrelly (*g* 1889), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 109, **1889**, 933–934.

—— Sur l'équation personnelle dans les mesures d'étoiles doubles. Paris Obs. Ann. (*Mém.*), 19, **1889**, C. 74 pp., vii.

—— Observations de la nouvelle Comète Brooks (*a* 1890), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 110, **1890**, 694.

—— Observations de la Comète Denning (1890 juillet 23), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 111, **1890**, 355–356.

—— Observations de la nouvelle planète Charlois, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 111, **1890**, 412–413.

—— Observation de la Comète d'Arrest (retrouvée par *M.* Barnard le 6 octobre 1890), faite à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 111, **1890**, 521.

—— Observations de la Comète Zona (1890 novembre 15), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 111, **1890**, 781; Astr. Nachr., 126, **1891**, 107–110.

—— Sur une nébuleuse variable. Paris, Ac. Sci. C. R., 112, **1891**, 471–474.

—— Nébuleuses nouvelles, découvertes à l'Observatoire de Paris. Paris, Ac. Sci. C. R., 112, **1891**, 647–650, 703–705, 848–850.

—— Observations de la Comète périodique Wolf, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 112, **1891**, 1352–1353.

—— Observations de la Comète périodique Tempel-Swift, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 113, **1891**, 455–456.

—— [Beobachtungen des Cometen 1892 (Denning Marz 18).] Astr. Nachr., 129, **1892**, 163–164.

—— Observations de la Comète *a* 1892 (Swift [, mars 6]), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 114, **1892**, 649–651, 824–825.

—— Observations de la Comète *c* 1892, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 114, **1892**, 651–652.

—— Sur les apparences actuelles de l'anneau de Saturne. Paris, Ac. Sci. C. R., 114, **1892**, 1167.

—— Observations de la nouvelle planète Wolf, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 115, **1892**, 364.

—— Observations de la nouvelle Comète Brooks (C 1892) et de la nouvelle planète Wolf, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 115, **1892**, 384–385.

—— Observations de la nouvelle planète Wolf (1892 sept. 13), et de la planète Borrelly-Wolf (Érigone?), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 115, **1892**, 435–436.

—— Observations de la nouvelle Comète Barnard (*d* 1892), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 115, **1892**, 585–586.

—— Observations de la nouvelle Comète Holmes (*f* 1892), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 115, **1892**, 782–783.

—— Observation de l'éclipse totale de Soleil du 16 avril 1893, faite à Joal (Sénégal), à l'Observatoire de la Mission du Bureau des Longitudes. Paris, Ac. Sci. C. R., 116, **1893**, 1181–1184.

—— Observations de la nouvelle Comète, *b* 1893, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 117, **1893**, 159–160.

—— Observations de la nouvelle Comète Brooks (1893 oct. 16), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 117, **1893**, 536–537.

—— Sur l'étoile nouvelle de 1892, T Aurigæ = 1953 Chandler. Paris, Ac. Sci. C. R., 117, **1893**, 655–657.

—— Observations des Comètes 1893 (Rordame) et *c* 1893 (Brooks, 1893 oct. 16), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 117, **1893**, 657–659.

— [Neuer Planet 1894 BC.] Astr. Nachr., 135, **1894**, 103–104.

—— [Beobachtung des neuen Planeten 1894 BE.] Astr. Nachr., 136, **1894**, 367–368.

—— Observations de la Comète 1889 V (Brooks, 1889 juillet 6) et de l'un de ses compagnons, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m, 305 d'ouverture). Bull. Astr., 11, **1894**, 263–265.

—— Observations de la Comète 1888 V (Barnard, 1888 octobre 30), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Bull. Astr., 11, **1894**, 313–314.

—— Observations des Comètes 1889 II, 1889 III, 1889 VI et 1890 I, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Bull. Astr., 11, **1894**, 396–397.

—— Observations de la Comète 1889 IV (Davidson, 1889 juillet 22), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Bull. Astr., 11, **1894**, 429–430.

—— Observations de la Comète 1889 I (Barnard, 1888 sept. 2), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Bull. Astr., 11, **1894**, 489.

—— Observations de la nouvelle planète AV (Courty, 1894 février 11), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 118, **1894**, 392–393.

—— Occultation de l'Épi de la Vierge, le 22 mars 1894, observée à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 118, **1894**, 694–695.

—— Observations de la planète BC, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 118, **1894**, 695–696.

—— Observations de la nouvelle Comète *a* 1894 (Denning, mars 26), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 118, **1894**, 730–731.

—— Détermination de l'intensité relative de la pesanteur, faite à Joal (Sénégal) par la mission chargée par le Bureau des Longitudes d'observer l'éclipse totale de Soleil du 16 avril 1893. Paris, Ac. Sci. C. R., 118, **1894**, 1095–1096.

—— Résumé des observations météorologiques faites à Joal (Sénégal) par la mission chargée par le Bureau des Longitudes d'observer l'éclipse totale de Soleil du 16 avril 1893. Paris, Ac. Sci. C. R., 118, **1894**, 1201–1204.

—— Disparition de la tache polaire australe de Mars. Paris, Ac. Sci. C. R., 119, **1894**, 633–634, 840–842.

—— Observations de la planète BE, faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 119, **1894**, 785–786.

—— Observations de la nouvelle Comète *c* Swift (1894 novembre 20), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 119, **1894**, 894.

—— Observations de la planète BC (1894 mars 24), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Bull. Astr., 12, **1895**, 20–21.

—— Mesures micrométriques d'étoiles doubles, faites à l'Observatoire de Paris, du 11 juillet 1890 au 31 décembre 1894. Bull. Astr., 12, **1895**, 298–312.

—— Sur l'orbite de la Comète de 1771. Paris, Ac. Sci. C. R., 120, **1895**, 978–980.

—— Observations de la Comète Brooks (1895 nov. 21), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 121, **1895**, 929–930.

—— Observation d'un bolide. Paris, Ac. Sci. C. R., 121, **1895**, 930.

—— Sur la mesure micrométrique des petites distances angulaires célestes et sur un moyen de perfectionner ce genre de mesures. Paris Obs. Ann. (*Mém.*), 21, **1895**, F. 31 pp.

—— Inventaire général et sommaire des manuscrits de la bibliothèque de l'Observatoire de Paris. Paris Obs. Ann. (*Mem.*), 21, **1895**, F. 60 pp.

—— Sur une disposition permettant de reproduire à distance et d'enregistrer indéfiniment les différences de déclinaison données par un micromètre à vis. Bull. Astr., 13, **1896**, 209–214.

—— Observations des Comètes Perrine (*a* 1896 et *c* 1895), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 122, **1896**, 364–365.

—— Sur un moyen de reconnaître les plus petites variations de marche des horloges astronomiques. Paris, Ac. Sci. C. R., 122, **1896**, 513–515.

Observations de la nouvelle Comète Swift (*b* 1896 = 1896 avril 13), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 122, **1896**, 979–980.

—— Observations de la nouvelle Comète Perrine (1896 nov. 2), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 123, **1896**, 730–731.

—— Nouveau micromètre à double image, particulièrement approprié à la mesure des petits diamètres. Paris, Ac. Sci. C. R., 123, **1896**, 1048–1050.

Nébuleuses nouvelles, découvertes à l'Observatoire de Paris. Paris, Ac. Sci. C. R., 123, **1896**, 1243–1245; 124, **1897**, 65–67, 133–135.

—— Sur la parallaxe annuelle de l'étoile 1822 Fedorenko. Bull. Astr., 14, **1897**, 105–115.

—— Sur la comparaison des durées d'oscillation de deux pendules réglés sensiblement à la même période. Paris, Ac. Sci. C. R., 124, **1897**, 279–280.

—— Observations de la nouvelle Comète Perrine (1897 oct. 16), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 125, **1897**, 592–594.

—— Rapport sur les observations d'astronomie, de physique du globe et de météorologie faites à Joal (Sénégal) (Longitude: 1h 16m 41s ouest de Paris. Latitude nord: 14° 9′ 22″) à l'occasion de l'éclipse totale de Soleil du 16 avril 1893. Paris, Bur. Long. Ann., 5, **1897**, B. 117 pp.

—— Occultation des Pléiades par la lune, le 3 janvier 1898, observée à l'équatorial de la Tour de l'Ouest de l'Observatoire de Paris. Paris, Ac. Sci. C. R., 126, **1898**, 196–197.

Sur l' "Histoire céleste du xviiᵉ siècle" de Pingré. Paris, Ac. Sci. C. R., 126, **1898**, 712–714.

—— Observations des nouvelles Comètes Coddington (1898 juin 11) et Giacobini (1898 juin 18), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 126, **1898**, 1768–1770.

—— Observations de la nouvelle Comète Brooks (1898 oct. 20), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 127, **1898**, 603.

—— Observations de la planète DQ = (433), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0m,305 d'ouverture). Paris, Ac. Sci. C. R., 127, **1898**, 805–806.

—— Sur une méthode différentielle propre à déterminer les variations de la latitude et la constante de l'aberration. Paris, Ac. Sci. C. R., 127, **1898**, 848–851.

—— Sur la prédiction des occultations d'étoiles par la lune, et sur le calcul des longitudes terrestres au moyen des occultations. Paris, Ac. Sci. C. R., 127, **1898**, 935–938.

—— Sur une comète découverte par Pons le 11 septembre 1808. Bull. Astr., 16, **1899**, 62–63.

—— Sur diverses circonstances qui modifient les images réfléchies par le bain de mercure, et sur la transmission à travers le sol des trépidations produits à la surface. Paris, Ac. Sci. C. R., 128, **1899**, 1147–1149; Bull. Astr., 16, **1899**, 210–226; 17, **1900**, 5–10.

—— Observation de l'essaim des Léonides, faite à l'Observatoire de Paris, du 13 au 16 novembre 1899. Paris, Ac. Sci. C. R., 129, **1899**, 805–806.

—— [Beobachtung des Cometen 1900 *b*.] Astr. Nachr., 153, **1900**, 107–108.

—— La prolongation de la méridienne de Paris, de Barcelone aux Baléares, d'après les correspondances inédites de Méchain, de Biot et d'Arago. Bull. Astr., 17, **1900**, 348–368, 390–400, 467–480.

—— Rapport sommaire sur l'observation, faite en Espagne, de l'éclipse totale de Soleil du 28 mai 1900. Bull. Astr., 17, **1900**, 369–390.

—— Sur un moyen de maintenir à pression constante une horloge placée dans une enveloppe à peu près étanche. Congr. Int. Chronom., **1900**, 162–163.

—— Observations du diamètre et de l'aplatissement de Jupiter. Paris, Ac. Sci. C. R., 130. **1900**, 62–64.

—— Observations de la Comète Giacobini (1900 janvier 31), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest de 0^m,305 d'ouverture). Paris, Ac. Sci. C. R., 130, **1900**, 553.

—— Sur la position et sur l'aspect actuel d'une étoile nouvelle, transformée en nébuleuse. Paris, Ac. Sci. C. R., 131, **1900**, 239–240.

—— Observations de l'éclipse totale de Soleil du 28 mai 1900 faites en Espagne, à Hellin, à Albacete et à Las Minas. Paris, Ac. Sci. C. R., 131, **1900**, 246–248.

—— Observations de la Comète Borelly (1900 juillet 23), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0^m,305 d'ouverture). Paris, Ac. Sci. C. R., 131, **1900**, 326–327.

Bigourdan, *G[uillaume]*, & **Callandreau,** [*Pierre Jean*] *O[ctave]*. *See* **Callandreau** & **Bigourdan.**

Bigourdan, *G[uillaume]*, & **Fayet,** *Gaston*. Observations de la Comète Perrine (1898 mars 19), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest, de 0^m,305 d'ouverture). Paris, Ac. Sci. C. R., 126, **1898**, 943–944.

—— Observations de la nouvelle Comète Perrine (1898 juin 14), faites à l'Observatoire de Paris (équatorial de la Tour de l'Ouest). Paris, Ac. Sci. C. R., 126, **1898**, 1770–1771.

—— Observations de la planète Eros faites en 1900 et 1901 à l'équatorial de la Tour de l'Ouest de 0^m,305 d'ouverture libre. [1904.] Paris Obs. Ann. (*Obsns.*), **1900**, E. 27–E. 51.

Bigourdan, *G[uillaume]*, **Fayet,** *Gaston*, & **Schaumasse,** [*Alexandre*]. Observations météorologiques faites pendant l'année 1900. [1904.] Paris Obs. Ann. (*Obsns.*), **1900**, G. 1–G. 17.

— Sulle modificazioni degli spigoli verticali nei cristalli di quarzo di Carrara e su quelle che strutturalmente vi

corrispondono nei cristalli di altre specie minerali. Bologna Acc. Sci. Mem., 2, **1891**, 747–761 *or* 337–351.

—— Sopra un nuovo modo di mimesia e di struttura fibrosa, con simmetrie romboedriche, nei cristalli cubici di pirite dei Monti della Riva, presso la chiesina di Rocca Corneta (Valle del Dardagna). [1891.] Bologna Rend., **1890–91**, 115–118.

—— Pioggia artificiale ed artificiale diminuzione della intensità e dei danni delle grandinate. Moncalieri Oss. Boll., 11, **1891**, 180–183.

—— Considerazioni sulle analogie di struttura mimetica fra la pirite, la boleite, la melanoflogite ed altre sostanze. [1892.] Bologna Rend., **1891–92**, 93–103.

—— Communicazione sulla mimesia di alcuni minerali. [1892.] Bologna Rend., **1891–92**, 127–128.

—— [Réponse à *M.* Georges Friedel sur la mélanophlogite.] France, Soc. Min. Bull., 15, **1892**, 144–157.

—— Le notevoli particolarità dei cristalli mimetici cubiformi di pirite gialla scoperti nelle marne grigie Terziarie antiche dei Monti della Riva (Valle del Dardagna, Appennino bolognese). [1893.] Bologna Acc. Sci. Mem., 3, **1892**, 59–105 *or* 25–71.

—— Sulla priorità di una spiegazione circa il sollevamento delle montagne e le loro dislocazioni, specialmente dell' Appennino emiliano. [1893.] Bologna Rend., **1892–93**, 73–79.

—— Descrizione degli esemplari di solfo nativo cristallizzato delle solfare di Romagna raccolti e classificati dall' autore nel Museo Mineralogico della R. Università di Bologna. Bologna Acc. Sci. Mem., 4, **1894**, 737–816 *or* 301–380.

—— Sulla contemporaneità di origine e di adattamento di sostanze diverse che cristallizzano nello stesso spazio poliedrico per coesistere nello stesso cristallo. Sulla durata indefinita del lavoro molecolare cristallogenico perfezionante nelle sostanze cristalline e nelle rocce in posto. [1894.] Bologna Acc. Sci. Mem., 5, **1895–96**, 475–500 *or* 171–196.

—— Sui ciottoli *improntati* in ordine alla loro distribuzione lungo le grandi linee di faglia del territorio bolognese. [1894.] Bologna Acc. Sci. Mem., 5, **1895–96**, 507–516 *or* 197–206.

—— Sulle injezioni e intrusioni di rocce cristalline entro rocce analoghe di eruzioni precedenti (sollevamenti e injezioni del granito elbano; delle eufotidi nelle serpentine, ecc.). [1894.] Bologna Acc. Sci. Mem., 5, **1895–96**, 517–523 *or* 207–213.

—— Sulla intrusione forzata ascendente di argille fattesi simili alle argille scagliose con breccioline verdi associate nelle fratture verticali de' banchi selenitici presso Bologna. [1894.] Bologna Acc. Sci. Mem., 5, **1895–96**, 525–527 *or* 215–217.

—— Le brecciole poligeniche dell' Appennino bolognese. Correlazioni fra le loro varietà calcareo-selcioso-ofiolitiche e i materiali d' inclusione nelle argille scagliose. [1894.] Bologna Acc. Sci. Mem., 5, **1895–96**, 529–542 *or* 219–232.

—— Sulle intrusioni ascendenti di materiali argilloidi nelle fratture regionali dell' Appennino emiliano. Riassunto di fatti vecchi e nuovi. [1895.] Bologna Acc. Sci. Mem., 5, **1895–96**, 501–506 *or* 165–170.

—— Sulle velature carboniose bituminoidi e sulle incrostazioni ferro-manganesifere e finamente sabbiose ricuoprenti il quarzo cristallizzato del macigno di Porretta. [1895.] Bologna Acc. Sci. Mem., 5, **1895–96**, 543–554 *or* 233–238.

—— Considerazioni critiche sull' attuale indirizzo dell' insegnamento universitario di mineralogia e su di alcune modificazioni che vennero recentemente proposte. [1895.] Bologna Acc. Sci. Mem., 5, **1895–96**, 631–642 *or* 301–312.

—— Sulle reciproche analogie fra talune forme frequenti ma finora inesplicate dei minerali delle argille scagliose d' intrusione ascendente. [1895.] Bologna Acc. Sci. Mem., 6, **1896–97**, 9–34.

—— Risposte al questionario per la nomenclatura litologica diramato a nome della Società Geologica Italiana, dopo l' adunanza sociale del 20 settembre 1893. [1896.] Bologna Acc. Sci. Mem., 5, **1895–96**, 707–723 *or* 319–335.

—— Le interessanti anomalie (dissimmetrie e spostamenti), dei mirabili cristalli di solfo nativo, della miniera di Cà-Bernardi. Confronto colle anomalie e contorsioni elicoidi del quarzo di Porretta. La ipotesi del Prof. G. Tschermak sulle curvature delle lastre paraboloidi del quarzo. Obiezioni a questa ipotesi. Spiegazione proposta per le suddette curvature. [1897–98.] Bologna Acc. Sci. Mem., 7, **1897**, 471–520 *or* 151–200.

—— Nuove considerazioni sulla probabilità che talune anomalie di forma nei cristalli dipendano da durevoli movimenti negli spazi naturalmente cristalligeni. Bologna Acc. Sci. Mem., 7, **1897**, 761–780 *or* 299–318.

—— Cristalli e gruppi dissimmetrici di solfo nativo della miniera di Cà-Bernardi (Marche). Probabile relazione fra le dissimmetrie, le curvature elicoidi, le distorsioni dei cristalli ec., ed il lento moto degli spazi dove questi si vanno formando. Bologna Rend., 1, **1897**, 173–176.

—— [Sulla calcite a scodellette.] Bologna Rend., 2, **1898**, 148.

—— Sulla cubosilicite e sulla sua posizione tassonomica nella serie delle varietà di silica anidra e idrata. [1899.] Bologna Acc. Sci. Mem., 8, **1899–1900**, 67–84 *or* 61–78.

—— Sopra una nuova contorsione arcuata di speciali allineamenti nei cristalli di quarzo. [1900.] • Bologna Acc. Sci. Mem., 8, **1899–1900**, 667–676 *or* 259–268.

—— Replica a due obbiezioni sulla cristallizzazione cubiforme della silice nella cubosilicite. [1900.] Bologna Acc. Sci. Mem., 8, **1899–1900**, 677–682 *or* 269–274.

—— Description of a new iguanoid lizard living in the Society's Gardens. Zool. Soc. Proc., 1886, 241.

—— Remarks on specimens of Rana arvalis exhibited in the Society's menagerie. Zool. Soc. Proc., 1886, 242–243.

—— First [to fourth reports] on additions to the batrachian collection in the Natural History Museum. Zool. Soc. Proc., 1886, 411–416; 1890, 323–328; 1894, 640–646; 1898, 473–482.

—— On two European species of Bombinator. Zool. Soc. Proc., 1886, 499–501.

—— On the South African tortoises allied to Testudo geometrica. Zool. Soc. Proc., 1886, 540–542.

—— Remarks on Prof. W. K. Parker's paper on the skull of the chameleons. Zool. Soc. Proc., 1886, 543.

—— Description of a new tailed batrachian from Corea. Ann. Mag. Nat. Hist., 19, 1887, 67.

—— On new fishes from the lower Congo. Ann. Mag. Nat. Hist., 19, 1887, 148–149.

—— Description of a new snake, of the genus Calamaria from Borneo. Ann. Mag. Nat. Hist., 19, 1887, 169–170.

—— On a new family of Pleurodiran turtles. Ann. Mag. Nat. Hist., 19, 1887, 170–172.

—— Descriptions of new South American characinoid fishes. Ann. Mag. Nat. Hist., 19, 1887, 172–174.

—— On new batrachians from Malacca. Ann. Mag. Nat. Hist., 19, 1887, 345–348.

—— On new siluroid fishes from the Andes of Columbia. Ann. Mag. Nat. Hist., 19, 1887, 348–350.

—— Remarks on Dr. A. Strauch's catalogue of the geckos in the Zoological Museum of the Imperial Academy of St. Petersburg. Ann. Mag. Nat. Hist., 19, 1887, 383–388.

—— Notes on the osteology of the genus Platysternum. Ann. Mag. Nat. Hist., 19, 1887, 461–463.

—— On new reptiles and batrachians from North Borneo. Ann. Mag. Nat. Hist., 20, 1887, 95–97.

—— Description of new or little-known South American frogs of the genera Paludicola and Hyla. Ann. Mag. Nat. Hist., 20, 1887, 295–300.

—— List[s] of reptiles and batrachians from Cyprus. Ann. Mag. Nat. Hist., 20, 1887, 344–345; 2, 1888, 505–506.

—— On the affinity of the North American lizard fauna. Ann. Mag. Nat. Hist., 20, 1887, 345–346; 1, 1888, 107–109.

—— On a rare Himalayan toad, Cophophryne sikkimensis, *Blyth.* Ann. Mag. Nat. Hist., 20, 1887, 405–407.

—— A list of the reptiles and batrachians obtained near Muscat, Arabia, and presented to the British Museum by Surgeon-Major A. S. G. Jayakar. Ann. Mag. Nat. Hist., 20, 1887, 407–408.

—— Description of a new snake from Afghanistan. Ann. Mag. Nat. Hist., 20, 1887, 413–414.

—— A synopsis of the snakes of South Africa. Zoologist, 11, 1887, 171–182.

—— List of the reptiles collected by Mr. H. H. Johnston

on the Cameroons Mountain. Zool. Soc. Proc., **1887**, 127.

—— On a collection of reptiles and batrachians made by Mr. H. Pryer in the Loo Choo Islands. Zool. Soc. Proc., **1887**, 146–150.

—— On a new geckoid lizard from British Guiana. Zool. Soc. Proc., **1887**, 153–154.

—— An account of the fishes collected by Mr. C. Buckley in eastern Ecuador. Zool. Soc. Proc., **1887**, 274–283.

—— Second [—fourth] contribution to the herpetology of the Solomon Islands. [For the first contribution *see below* Zool. Soc. Trans., 12, **1890**, 35–62.] Zool. Soc. Proc., **1887**, 333–338; **1888**, 88–90; **1890**, 30–31.

—— On a new gecko, of the genus Chondrodactylus, from the Kalahari desert. Zool. Soc. Proc., **1887**, 339–340.

—— On a new snake of the genus Lamprophis, now living in the Society's Gardens. Zool. Soc. Proc., **1887**, 397–398.

—— Reptiles. [Report on a zoological collection made by the officers of H.M.S. *Flying-Fish*, at Christmas Island, Indian Ocean.] Zool. Soc. Proc., **1887**, 516–517.

—— On the systematic position of the genus Miolania, *Owen* (Ceratochelys, *Huxley*). Zool. Soc. Proc., **1887**, 554–555.

—— Notes on Emys Blandingii. Zool. Soc. Proc., **1887**, 555–556.

—— [Xenopus lævis.] Zool. Soc. Proc., **1887**, 563–564.

—— A list of the reptiles and batrachians collected by Mr. H. H. Johnston on the Rio del Rey, Cameroons district, W. Africa. Zool. Soc. Proc., **1887**, 564–565.

—— On a new species of Hyla from Port Hamilton, Corea, based on an example living in the Society's Gardens. Zool. Soc. Proc., **1887**, 578–579.

—— Description of a new genus of lizards of the family Teiidæ. Zool. Soc. Proc., **1887**, 640–642.

—— [First to third accounts] of the fishes obtained by Surgeon-Major A. S. G. Jayakar at Muscat, east coast of Arabia. Zool. Soc. Proc., **1887**, 653–667; **1889**, 236–246; **1892**, 134–136.

—— Les espèces du genre Ophiomore. [1888.] France Soc. Zool. Bull., 12, **1887**, 519–534.

—— [The zoology of the Afghan Delimitation Commission.] Reptiles and batrachians. [1887.] Linn. Soc. Trans. (*Zool.*), 5, **1888–94**, 94–106.

—— Description of two new chamæleons from Nossi Bé, Madagascar. Ann. Mag. Nat. Hist., 1, **1888**, 22–23.

—— On a rare American newt, Molge meridionalis, *Cope*. Ann. Mag. Nat. Hist., 1, **1888**, 24.

—— Descriptions of new reptiles and batrachians from Madagascar. Ann. Mag. Nat. Hist., 1, **1888**, 101–107; 4, **1889**, 244–248.

—— Descriptions of new Brazilian batrachians. Ann. Mag. Nat. Hist., 1, **1888**, 187–189.

—— Descriptions of new reptiles and batrachians obtained by Mr. H. O. Forbes in New Guinea. Ann. Mag. Nat. Hist., 1, **1888**, 343–346.

—— On the characters of the chelonian families Pelomedusidæ and Chelydidæ. Ann. Mag. Nat. Hist., 1, **1888**, 346–347.

—— A list of batrachians from the province Santa Catharina, Brazil. Ann. Mag. Nat. Hist., 1, **1888**, 415–417.

—— On some reptiles and batrachians from Iguarasse, Pernambuco. Ann. Mag. Nat. Hist., 2, **1888**, 40–43.

—— Description of two new snakes from Hongkong, and note on the dentition of Hydrophis viperina. Ann. Mag. Nat. Hist., 2, **1888**, 43–45.

—— On new or little known South African reptiles. Ann. Mag. Nat. Hist., 2, **1888**, 136–141.

—— Descriptions of two new Australian frogs. Ann. Mag. Nat. Hist., 2, **1888**, 142–143.

—— Descriptions of two new Indian species of Rana. Ann. Mag. Nat. Hist., 2, **1888**, 506–508.

—— Description of a new snake from Muscat, Arabia. Ann. Mag. Nat. Hist., 2, **1888**, 508–509.

—— Note sur le Pélobate brun, à propos de la récente communication de *M.* Héron-Royer sur le Pelobates latifrons. France Soc. Zool. Bull., 13, **1888**, 115–116.

—— Encore un mot sur les prétendus caractères différentiels du Pélobate d'Italie. France Soc. Zool. Bull., 13, **1888**, 163.

—— Sur la synonymie et la distribution géographique des deux sonneurs européens. France Soc. Zool. Bull., 13, **1888**, 173–176.

—— An account of the batrachians obtained in Burma by *M.* L. Fea, of the Genoa Civic Museum. Genova Mus. Civ. Ann., 25, **1887–88**, 418–424.

—— An account of the reptiles and batrachians obtained in Tenasserim by *M.* L. Fea, of the Genoa Civic Museum. Genova Mus. Civ. Ann., 25, **1887–88**, 474–486.

—— On the chelydoid chelonians of New Guinea. Genova Mus. Civ. Ann., 26, **1888**, 449–452.

—— An account of the Reptilia obtained in Burma, north of Tenasserim, by *M.* L. Fea, of the Genoa Civic Museum. Genova Mus. Civ. Ann., 26, **1888**, 593–604.

—— Note on the classification of the Ranidæ. Zool. Soc. Proc., **1888**, 204–206.

—— Description of a new land tortoise from South Africa, from a specimen living in the Society's Gardens. Zool. Soc. Proc., **1888**, 251.

—— On the scaling of the reproduced tail in lizards. Zool. Soc. Proc., **1888**, 351–353.

—— On the reptiles of Christmas Island. Zool. Soc. Proc., **1888**, 534–536.

—— Remarks in reply to Dr. Baur's article on the systematic position of Miolania. Ann. Mag. Nat. Hist., 3, **1889**, 138–141.

—— On the reptiles and batrachians obtained in Morocco by *M.* Henry Vaucher. Ann. Mag. Nat. Hist., 3, **1889**, 303–307.

—— Description of a new batrachian of the genus Eupemphix from Trinidad. Ann. Mag. Nat. Hist., 3, **1889**, 307–308.

—— Descriptions of a new snake and two new fishes obtained by Dr. H. von Ihering in Brazil. Ann. Mag. Nat. Hist., 4, **1889**, 265–267.

—— Descriptions of new Typhlopidæ in the British Museum. Ann. Mag. Nat. Hist., 4, **1889**, 360–363.

—— On a collection of batrachians made by Prof. Charles Spegazzini at Colonia Resistencia, South Chaco, Argentine Republic. Genova Mus. Civ. Ann., 27, **1889**, 246–249.

—— Description of a new batrachian of the genus Leptobrachium, obtained by *M.* L. Fea in the Karens Mountains, Burma. Genova Mus. Civ. Ann., 27, **1889**, 748–750.

—— On the species of Rhacophorus confounded under the name of R. maculatus. Zool. Soc. Proc., **1889**, 27–32.

—— On some specimens of lizards in the Zoological Museum of Halle (Saale). Zool. Soc. Proc., **1889**, 143–145.

—— Note on Python curtus. Zool. Soc. Proc., **1889**, 432–433.

—— On the reptiles and batrachians of the Solomon Islands. [1884.] Zool. Soc. Trans., 12, **1890**, 35–62.

Boussinesq, [*Valentin*] *J*[*oseph*]. Complément à de précédentes notes sur la poussée des terres. Ann. Ponts et Chauss., 7 (1884), 443–481.
—— Sur la poussée d'une masse de sable, à surface supérieure horizontale, contre une paroi verticale ou inclinée. Paris, Ac. Sci. C. R., 98, 1884, 667–670.
—— Sur la poussée d'une masse de sable, à surface supérieure horizontale, contre une paroi verticale dans le voisinage de laquelle son angle de frottement intérieur est supposé croître légèrement d'après une certaine loi. Paris, Ac. Sci. C. R., 98, 1884, 720–723.
—— Calcul approché de la poussée et de la surface de rupture, dans un terre-plein horizontal homogène, contenu par un mur vertical. Paris, Ac. Sci. C. R., 98, 1884, 790–793.
—— Sur le principe du prisme de plus grande poussée, posé par COULOMB dans la théorie de l'équilibre-limite des terres. Paris, Ac. Sci. C. R., 98, 1884, 901–904, 975–978.
—— Remarque relative à la vitesse de propagation de l'intumescence produite dans l'océan Indien par l'éruption de Krakatoa. Paris, Ac. Sci. C. R., 98, 1884, 1251–1252.
—— Application des potentiels à l'étude de l'équilibre et du mouvement des solides élastiques, principalement au calcul des déformations et des pressions que produisent, dans ces solides, des efforts quelconques exercés sur une petite partie de leur surface ou de leur intérieur; mémoire suivi de notes étendues sur divers points de physique

mathématique et d'analyse. Lille Soc. Mém., 13, 1885, 1-722.

—— Sur la résistance qu'oppose un liquide indéfini en repos, sans pesanteur, au mouvement varié d'une sphère solide qu'il mouille sur toute sa surface, quand les vitesses restent bien continues et assez faibles pour que leurs carrés et produits soient négligeables. Paris, Ac. Sci. C. R., 100, 1885, 935-937.

—— Résistance qu'éprouve un cylindre circulaire indéfini, plongé dans un fluide, à se mouvoir pendulairement suivant une direction perpendiculaire à son axe. Paris, Ac. Sci. C. R., 100, 1885, 974-977.

—— Observations relatives à une note récente de *M.* Résal sur la flexion des prismes. Paris, Ac. Sci. C. R., 102, 1886, 797-799.

—— Sur la théorie de l'écoulement par un déversoir en mince paroi, quand il n'y a pas de contraction latérale et que la nappe déversante est libre en dessous. Paris, Ac. Sci. C. R., 105, 1887, 17-22.

—— Sur la théorie des déversoirs en mince paroi et à nappe soit déprimée, soit soulevée, c'est-à-dire soumise inférieurement à une pression constante, plus petite ou plus grande que celle de l'atmosphère exercée au-dessus. Paris, Ac. Sci. C. R., 105, 1887, 585-590, 696.

—— Sur la théorie des déversoirs épais, ayant leur seuil horizontal et évasé ou non à son entrée. Paris, Ac. Sci. C. R., 105, 1887, 632-638.

—— Sur une forme de déversoir en mince paroi, analogue à l'ajutage rentrant de Borda, pour laquelle le relèvement de la face inférieure de la nappe liquide, à la sortie du déversoir, peut être déterminé théoriquement. Paris, Ac. Sci. C. R., 105, 1887, 697-702.

—— Équilibre d'élasticité d'un solide sans pesanteur, homogène et isotrope, dont les parties profondes sont maintenues fixes, pendant que sa surface éprouve des pressions ou des déplacements connus, s'annulant hors d'une région restreinte où ils sont arbitraires. Paris, Ac. Sci. C. R., 106, 1888, 1043-1048, 1119-1123.

—— Complément à la théorie des déversoirs en mince paroi qui s'étendent à toute la largeur du lit d'un cours d'eau : influence, sur le débit, des vitesses d'arrivée des filets fluides. Paris, Ac. Sci. C. R., 107, 1888, 513-519, 538-542.

—— Formules de la dissémination du mouvement transversal dans une plaque plane indéfinie. Paris, Ac. Sci. C. R., 108, 1889, 639-645.

—— Expressions approchées du contour de l'ellipse et de la surface de l'ellipsoïde, en fonction des deux moyennes arithmétique et géométrique des demi-axes. Paris, Ac. Sci. C. R., 108, 1889, 695-699.

—— Complément à la théorie des déversoirs en mince paroi, qui s'étendent à toute la largeur du lit d'un cours d'eau : mise en compte des variations de la contraction qu'éprouve la nappe déversante, du côté de sa face inférieure. Paris, Ac. Sci. C. R., 109, 1889, 515-520.

—— Complément à la théorie des déversoirs en mince paroi qui s'étendent à toute la largeur du lit d'un cours d'eau; calcul approché, pour les nappes déprimées ou noyées en dessous, de la non-pression exercée à leur face inférieure, d'après l'élévation imposée au niveau d'aval dans le canal de fuite. Paris, Ac. Sci. C. R., 109, 1889, 541-546.

—— Théorie du régime permanent graduellement varié qui se produit près de l'entrée évasée d'un tube fin, où les filets d'un liquide qui s'y écoule n'ont pas encore acquis leurs inégalités normales de vitesse. Paris, Ac. Sci. C. R., 110, 1890, 1160-1166.

—— Théorie du mouvement permanent qui se produit près de l'entrée évasée d'un tube fin : application à la deuxième série d'expériences de Poiseuille. Paris, Ac. Sci. C. R., 110, 1890, 1238-1242.

—— Calcul des températures successives d'un milieu homogène et athermane indéfini, que sillonne une source de chaleur. Paris, Ac. Sci. C. R., 110, 1890, 1242-1244.

—— Théorie du régime permanent graduellement varié qui se produit près de l'entrée évasée d'un tuyau de conduite, où les filets fluides n'ont pas encore acquis leurs inégalités normales de vitesse. Paris, Ac. Sci. C. R., 110, 1890, 1292-1298.

—— Sur l'explication physique de la fluidité. Paris, Ac. Sci. C. R., 112, 1891, 1099-1102.

—— Sur les déformations et l'extinction des ondes aériennes, isolées ou périodiques, propagées à l'intérieur de tuyaux de conduite sans eau, de longueur indéfinie. Paris, Ac. Sci. C. R., 112, 1891, 1337-1343; Jl. Phys., 10, 1891, 301-332.

—— Sur la manière dont les vitesses dans un tube cylindrique de section circulaire, évasé à son entrée, se distribuent depuis cette entrée jusqu'aux endroits où se trouve établi un régime uniforme. Paris, Ac. Sci. C. R., 113, 1891, 9-15.

—— Calcul de la moindre longueur que doit avoir un tube circulaire, évasé à son entrée, pour qu'un régime sensiblement uniforme s'y établisse, et de la dépense de charge qu'y entraîne l'établissement de ce régime. Paris, Ac. Sci. C. R., 113, 1891, 49-51.

—— Sur la théorie de l'écoulement des liquides par les orifices en mince paroi, circulaires ou rectangulaires allongés; calcul approché du débit et de sa répartition entre les divers éléments superficiels de l'orifice. Jl. Phys., 1, 1892, 265-285.

—— Sur le calcul théorique approché du débit d'un orifice en mince paroi. Paris, Ac. Sci. C. R., 114, 1892, 704-710.

—— Débit des orifices circulaires et sa répartition entre leurs divers éléments superficiels. Paris, Ac. Sci. C. R., 114, 1892, 807-812.

—— Écoulement par les orifices rectangulaires, sans contraction latérale : calcul théorique de leur débit et de sa répartition. Paris, Ac. Sci. C. R., 114, 1892, 868-873.

—— Calcul de la diminution qu'éprouve la pression moyenne, sur un plan horizontal fixe, à l'intérieur du liquide pesant remplissant un bassin et que viennent agiter des mouvements quelconques de houle ou de clapotis. Paris, Ac. Sci. C. R., 114, 1892, 937-940.

—— Des perturbations locales que produit au dessous d'elle une forte charge, répartie uniformément le long d'une droite normale aux deux bords, à la surface supérieure d'une poutre rectangulaire et de longueur indéfinie posée de champ soit sur un sol horizontal, soit sur deux appuis transversaux équidistants de la charge. Paris, Ac. Sci. C. R., 114, 1892, 1510-1516.

—— Des perturbations locales que produit au dessous d'elle une forte charge, répartie uniformément le long d'une droite normale aux deux bords, à la surface supérieure d'une poutre rectangulaire : vérifications expérimentales. Paris, Ac. Sci. C. R., 115, 1892, 5-11.

—— Sur une légère correction additive qu'il peut y avoir lieu de faire subir aux hauteurs d'eau indiquées par les marégraphes, quand l'agitation houleuse ou clapoteuse de la mer atteint une grande intensité : cas d'une mer houleuse. Paris, Ac. Sci. C. R., 115, 1892, 77-82, 149-152.

—— Théorie de l'écoulement sur les déversoirs sans contraction latérale, en tenant compte des variations qu'éprouve, suivant le niveau d'aval, la contraction inférieure de la nappe déversante. Paris, Ac. Sci. C. R., 116, 1893, 1327-1333.

—— Vérifications expérimentales de la théorie des déversoirs sans contraction latérale, à nappe libre en dessous. Paris, Ac. Sci. C. R., 116, 1893, 1415-1418.

—— Sur une simplification qu'on introduit dans certaines formules de résistance vive des solides, en y faisant figurer la plus grande dilatation linéaire Δ que comporte leur matière, à la place de la force élastique correspondante R_0. Paris, Ac. Sci. C. R., 116, 1893, 1418-1421.

—— Calcul théorique de la contraction inférieure, dans les déversoirs en mince paroi à nappe libre en dessous, quand cette contraction atteint ses plus grandes valeurs, et vérifications expérimentales. Paris, Ac. Sci. C. R., 116, 1893, 1487–1490.
—— Sur les déformations successives de la tête d'une onde aérienne isolée, durant la propagation de cette onde le long d'un tuyau de conduite sans eau, de longueur indéfinie. Paris, Ac. Sci. C. R., 117, 1893, 12–18.
—— Introduction naturelle de termes proportionnels aux déplacements de l'éther (ou termes de Briot), dans les équations de mouvement des ondes lumineuses. Paris, Ac. Sci. C. R., 117, 1893, 80–86.
—— Expression de la résistance opposée par chaque molécule pondérable au mouvement vibratoire de l'éther ambiant. Paris, Ac. Sci. C. R., 117, 1893, 138–144.
—— Considérations diverses sur la théorie des ondes lumineuses. Paris, Ac. Sci. C. R., 117, 1893, 193–199.
—— Intégration de l'équation du son pour un fluide indéfini à une, deux ou trois dimensions, quand des résistances de nature diverse introduisent dans cette équation des termes respectivement proportionnels à la fonction caractéristique du mouvement ou à ses dérivées partielles premières. Paris, Ac. Sci. C. R., 118, 1894, 162–166, 223–226, 271–276.
—— Théorie de l'écoulement sur un déversoir sans contraction latérale, quand la nappe déversante se trouve ou déprimée, ou noyée en dessous, ou adhérente au barrage. Paris, Ac. Sci. C. R., 119, 1894, 589–595.
—— Détermination en partie expérimentale et en partie théorique de la contraction inférieure d'une nappe de déversement déprimée, ou noyée en dessous, ou même adhérente, sur un barrage ayant sa face d'amont verticale. Paris, Ac. Sci. C. R., 119, 1894, 618–624.
—— Vérifications expérimentales de la théorie des déversoirs à nappes noyées en dessous ou adhérentes : vérifications relatives au débit et à la contraction inférieure. Paris, Ac. Sci. C. R., 119, 1894, 663–669.
—— Vérifications expérimentales de la théorie des déversoirs à nappe noyée en dessous ou adhérente : vérifications relatives aux pressions. Paris, Ac. Sci. C. R., 119, 1894, 707–711.
—— Sur la théorie de l'écoulement par un déversoir à nappe déprimée ou noyée en dessous, dans le cas où une armature horizontale rend la contraction inférieure maximum. Paris, Ac. Sci. C. R., 119, 1894, 771–776.
—— Sur la forme nécessairement pendulaire de la houle de mer, quant à l'expression des déplacements de chaque particule en fonction du temps. Paris, Ac. Sci. C. R., 120, 1895, 1240–1246.
—— Sur la forme nécessairement pendulaire des déplacements dans la houle de mer, même quand on ne néglige plus les termes non linéaires des équations du mouvement. Paris, Ac. Sci. C. R., 120, 1895, 1310–1315.
—— Sur l'extinction graduelle de la houle de mer aux grandes distances de son lieu de production : formation des équations du problème. Paris, Ac. Sci. C. R., 120, 1895, 1381–1386.
—— Lois de l'extinction d'une houle simple en haute mer. Paris, Ac. Sci. C. R., 121, 1895, 15–19.
—— Sur la manière dont se régularise au loin, en s'y réduisant à une houle simple, toute agitation confuse mais périodique des flots. Paris, Ac. Sci. C. R., 121, 1895, 85–88.
—— Théorie de l'écoulement tourbillonnant et tumultueux des liquides dans les lits rectilignes à grande section (tuyaux de conduite et canaux découverts), quand cet écoulement s'est régularisé en un régime uniforme, c'est-à-dire moyennement pareil à travers toutes les sections normales du lit. Paris, Ac. Sci. C. R., 122, 1896, 1289–1295.
—— Formules des pressions moyennes locales, dans un fluide animé de mouvements tourbillonnants et tumultueux. Paris, Ac. Sci. C. R., 122, 1896, 1369–1375.
—— Expression du frottement extérieur dans l'écoulement tumultueux d'un fluide. Paris, Ac. Sci. C. R., 122, 1896, 1445–1451.
—— Formules du coefficient des frottements intérieurs, dans l'écoulement tumultueux graduellement varié des liquides. Paris, Ac. Sci. C. R., 122, 1896, 1517–1523.
—— Lois générales du régime uniforme dans les lits à grande section. Paris, Ac. Sci. C. R., 123, 1896, 7–13.
—— Du régime uniforme dans les canaux rectangulaires larges et dans les tuyaux ou canaux à section circulaire ou demi-circulaire. Paris, Ac. Sci. C. R., 123, 1896, 77–83.
—— Lois de deuxième approximation du régime uniforme, dans les tuyaux circulaires et dans les canaux demi-circulaires. Paris, Ac. Sci. C. R., 123, 1896, 141–147.
—— Écoulement graduellement varié des liquides dans les lits à grande section ; équations fondamentales. Paris, Ac. Sci. C. R., 124, 1897, 1196–1202.
—— Théorie générale des régimes graduellement variés dans l'écoulement tourbillonnant des liquides : formules de première approximation. Paris, Ac. Sci. C. R., 124, 1897, 1261–1267.
—— Vérification expérimentale de la théorie de l'écoulement graduellement varié dans les canaux découverts. Paris, Ac. Sci. C. R., 124, 1897, 1327–1333.
—— Expression des petites composantes transversales de la vitesse dans les écoulements graduellement variés des liquides. Paris, Ac. Sci. C. R., 124, 1897, 1411–1416.
—— Parties tournantes des composantes transversales de la vitesse, dans un écoulement permanent graduellement varié. Paris, Ac. Sci. C. R., 124, 1897, 1492–1497.
—— Distribution des vitesses à travers les grandes sections, dans les écoulements graduellement variés, et équation du mouvement aux degrés d'approximation supérieurs. Paris, Ac. Sci. C. R., 125, 1897, 6–12.
—— Théorie approchée du passage d'un régime graduellement varié à un régime rapidement varié ou *vice versa*. Paris, Ac. Sci. C. R., 125, 1897, 69–75.
—— Établissement du régime uniforme, dans un tuyau à section rectangulaire large. Paris, Ac. Sci. C. R., 125, 1897, 142–147.
—— Établissement du régime uniforme dans un tuyau à section circulaire. Paris, Ac. Sci. C. R., 125, 1897, 203–209.
—— Relation qui existe, dans la bicyclette roulant sur un sol horizontal, entre le mouvement de progression et le mouvement d'inclinaison. Paris, Ac. Sci. C. R., 127, 1898, 843–848.
—— Aperçu sur la théorie de la bicyclette : équilibre du cavalier. Paris, Ac. Sci. C. R., 127, 1898, 895–899.
—— Aperçu sur la théorie de la bicyclette. Liouville, Jl. Math., 5, 1899, 117–135, 217–232.
—— De l'effet produit, sur le mouvement d'inclinaison d'une bicyclette en marche, par les déplacements latéraux que s'imprime le cavalier. Paris, Ac. Sci. C. R., 128, 1899, 766–771.
—— Calcul, dans une hypothèse simple, du déplacement latéral que doit s'imprimer le cavalier, sur une bicyclette en marche, pour porter le centre de gravité du système à une petite distance horizontale voulue de la base de la bicyclette. Paris, Ac. Sci. C. R., 128, 1899, 859–862.
—— Ce que devient un système d'ondes planes latéralement indéfinies, dans un milieu transparent isotrope, mais hétérogène, formé de couches planes et parallèles. Paris, Ac. Sci. C. R., 129, 1899, 794–799.
—— Propagation, dans un milieu transparent hétérogène, d'un pinceau latéralement limité de lumière parallèle : intégration des équations du mouvement. Paris, Ac. Sci. C. R., 129, 1899, 859–864.
—— Justification du principe de Fermat sur l'économie du temps, dans la transmission du mouvement lumineux à travers un milieu hétérogène, d'ailleurs transparent et isotrope. Paris, Ac. Sci. C. R., 129, 1899, 905–911.

—— Réduction de certains problèmes d'échauffement ou de refroidissement par rayonnement, au cas plus simple de l'échauffement ou du refroidissement des mêmes corps par contact : échauffement d'un mur d'épaisseur indéfinie. Paris, Ac. Sci. C. R., 130, **1900**, 1579–1583.

—— Problème du refroidissement de la croûte terrestre, traité au même point de vue que l'a fait Fourier, mais par une méthode d'intégration beaucoup plus simple. Paris, Ac. Sci. C. R., 130, **1900**, 1652–1658.

—— Problème du refroidissement d'un mur par rayonnement, ramené au cas plus simple où le refroidissement aurait lieu par contact. Paris, Ac. Sci. C. R., 130, **1900**, 1731–1736.

— Échauffement permanent mais inégal, par rayonnement, d'un mur d'épaisseur indéfinie, ramené au cas d'un échauffement analogue par contact. Paris, Ac. Sci. C. R., 131, **1900**, 9–13.

—— Problème de l'échauffement permanent d'une sphère par rayonnement, ramené au problème plus simple de l'échauffement de la même sphère par contact. Paris, Ac. Sci. C. R., 131, **1900**, 81–86.

Braun, *Heinrich.* Ueber einen eigenthümlichen Fall von combinirter systematischer Erkrankung des Rückenmarks und der peripheren Nerven. Deutsch. Arch. Klin. Med., 42, **1888**, 459–480.

—— Ueber eine besondere Form der finger- und griffelförmigen Exostosen. Deutsche Ztschr. Chirurg., 30, **1890**, 199–203.

—— Untersuchungen über den Bau der Synovialmembranen und Gelenkknorpel, sowie über die Resorption flüssiger und fester Körper aus den Gelenkhöhlen. Deutsche Ztschr. Chirurg., 39, **1894**, 35–86.

—— Ein Fall von Pseudohermaphroditismus masculinus externus. Ztschr. Geburtshlf. Gynäk., 28, **1894**, 375–382.

— — Ueber die Erfolge der operativen Behandlung der traumatischen Jackson'schen Epilepsie. Deutsche Ztschr. Chirurg., 48, **1898**, 223–306.

—— Ueber ausgedehnte Blutextravasate am Kopfe, Halse, Nacken und linken Arme, infolge von Compression des Unterleibes. Deutsche Ztschr. Chirurg., 51, **1899**, 599–604.

—— Stauungsblutungen nach Rumpfcompression. Deutsche Ztschr. Chirurg., 56, **1900**, 183–189.

Braun, *Hermann [Anton Joseph]*. Ueber einige Fehlerquellen bei Titration des Harnstoffs mit Mercurinitrat. Pflüger, Arch. Physiol., 35, **1885**, 277–294.

Braun, *J[ulius] von*. Die Einwirkung von Bromcyan auf tertiäre Amine. Berlin, Chem. Ges. Ber., 33, **1900**, 1438–1452, 2728–2734, 2734–2736, 2965, 4192.

—— Darstellung einiger phenylirter Guanidine aus Diphenylcyanamid. Berlin, Chem. Ges. Ber., 33, **1900**, 2724–2725.

—— Eine neue, bequeme Darstellungsweise aromatischer Sulfoharnstoffe. Berlin, Chem. Ges. Ber., 33, **1900**, 2726–2727.

Braun, *J[ulius] von*, & **Stechele,** *F[ritz]*. Zur Kenntniss des Allylacetons. Berlin, Chem. Ges. Ber., 33, **1900**, 1472–1477.

Braun, *Károly*. Ueber kosmischen Staub und die Mond-Acceleration. Astr. Nachr., 108, **1884**, 259–262.

—— Ueber eine neue Reductions-Methode für Sätze von Transit-Beobachtungen. Astr. Nachr., 109, **1884**, 33–40.

—— Beobachtungen des Cometen 1884 I (Pons 1812) an der Erzbisch. Haynald'schen Sternwarte in Kalocsa (Ungarn). Astr. Nachr., 109, **1884**, 61–64.

— A Kalocsai Csillagda geographiai hosszúsága. [Geographical longitude of Kalocsa Observatory.] Magyar Tud. Ak. Értes., 18, **1884**, 55–57.

—— Berichte von dem Erzbischöflich-Haynaldschen Observatorium zu Kalocsa in Ungarn über die daselbst in den ersten fünf Jahren ausgeführten Arbeiten. Kalocsa Haynald Obs. Ber., **1886**, 178 pp.

—— Az 1883-4-ik évi esthajnali tüneményröl. [On the crepuscular phenomenon of 1883–84.] Termt. Kozlon., 19, **1887**, 408–415.

—— Ueber die genaue Justirung des grossen Spiegels eines Sextanten, sowie über diejenige des Gauss'schen Heliotropen. Ztschr. Instrumentenk., 8, **1888**, 238–241.

— Ueber photographische Aufnahmen der Sonnenprotuberanzen. Astr. Nachr., 126, **1891**, 227–228.

—— A simple rule for finding the day of the week corresponding to any given day of the month and year. Nature, 48 (**1893**), 222–223.

—— Die Gravitations-Constante, die Masse und mittlere Dichte der Erde nach einer neuen experimentellen Bestimmung. Wien, Ak. Denkschr., 64, **1897**, 187–258.

Braun, *L.*, & **Ebert,** *Robert*. Ueber Disulfhydrate und Dirhodanate des Naphtalins. Berlin, Chem. Ges. Ber., 25, **1892**, 2735–2739.

Braun, *Leonh.* Ueber die Absorption von Stickstoff und von Wasserstoff in wässerigen Lösungen verschieden dissociierter Stoffe. Ztschr. Physikal. Chem., 33, **1900**, 721–739.

Braun, *Louis*. L'horlogerie électro-automatique. [1894.] Génie Civil, 26, **1894–95**, 3–7.

Braun, *Ludwig*. Ueber die Einwirkung von Isobutyraldehyd auf Malon- und Cyanessig-Säure. Wien, Ak. Sber., 105, **1896** (*Abth. 2b*), 164–181; Mhefte. Chem., **1896**, 207–224.

— Ueber osteoplastisches Carcinom der Prostata, zugleich ein Beitrag zur Genese der perniciösen Anämie. Wien. Med. Wschr., 46, **1896**, 481–484, 527–532, 582–588.

— Der Ausdruck der Herzbewegungen an der Thoraxwand. Wien. Med. Wschr., 46, **1896**, 2121–2125, 2177–2183.

—— Ueber den Werth des Kinematographen für die Erkenntniss der Herzmechanik. Deutsch. Natf. Verh., **1897** (*Th.* 1), 185–186; Wien. Med. Wschr., 47, **1897**, 2025–2028.

Braun, *Ludwig*, & **Mager,** *Wilhelm*. Ueber die Wirkung der Digitaliskörper auf das isolirte Säugethierherz (Langendorff'sches Präparat). Wien, Ak. Sber., 108, **1899** (*Abth.* 3), 471–558.

— Ueber die Wirkung der Galle und der gallensauren Salze auf das isolirte Säugethierherz (Langendorff'sches Präparat). Wien, Ak. Sber., 108, **1899** (*Abth.* 3), 559–586.

Braun, *Max[imilian]*. Aus der Entwicklungsgeschichte der Papageien. Deutsch. Natf. Tagebl., **1879**, 227–229.

—— Die niederen Tiere des Finnischen Meerbusens. Humboldt, 4, **1885**, 440–442.

—— Ueber die Turbellarien Livlands. Zool. Anz., 8, **1885**, 696–699.

—— Einige für die Ostseeprovinzen neue Land- und Süsswassermollusken. [1884.] Dorpat Sber., 7, **1886**, 47–48.

—— Verzeichniss baltischer Conchylien, gesammelt von Herrn Akademiker L. von Schrenck. [1884.] Dorpat Sber., 7, **1886**, 49–50.

—— Aufzählung von Land- und Süsswassermollusken aus dem Gouvernement Pleskau (Pskow). [1884.] Dorpat Sber., 7, 1886, 50–51.
—— Temperatur und Salzgehalt des Wassers im Finnischen Meerbusen. [1884.] Dorpat Sber., 7, 1886, 51–52.
—— Die Fauna des Finnischen Meerbusens. [1884.] Dorpat Sber., 7, 1886, 140–143.
—— [Insectenlarven im Weizen.] [1884.] Dorpat Sber., 7, 1886, 149–150.
—— Einige helminthologische Mittheilungen. [1884.] Dorpat Sber., 7, 1886, 175–177.
—— Ueber abnorme Einschlüsse in Hühnereiern. [1884.] Dorpat Sber., 7, 1886, 190–191.
—— Ein Blasenwurm aus dem Muskelfleisch eines Hasen. [1884.] Dorpat Sber., 7, 1886, 191–193.
—— Verzeichniss der Echinodermen des Hafens von Mahon, Menorca. [1885.] Dorpat Sber., 7, 1886, 307–310.
— Vorläufiger Bericht über die rhabdocoelen Turbellarien der Umgebung von Dorpat. [1885.] Dorpat Sber., 7, 1886, 318–320.
—— Ueber alloiocoele Turbellarien des Peipus. [1885.] Dorpat Sber., 7, 1886, 333–335, 341.
—— Ueber das Genus Castrada und die in Livland vorkommenden Arten desselben. [1885.] Dorpat Sber., 7, 1886, 341–342.
—— Ueber die Rhabdocoelidenfauna Livlands. [1885.] Dorpat Sber., 7, 1886, 359–361.
—— Bemerkungen über Lacerta milisellensis, *Br.* Zool. Anz., 9, 1886, 426–429.
— Zur Behandlung der Anthozoen. Zool. Anz., 9, 1886, 458–459.
—— Einige Bemerkungen zu Prof. R. Blanchard's Artikel: "La nomenclature zoologique et l'helminthologie." Centrbl. Bakt., 1, 1887, 585–586.

—— Ueber Melolonthiden. II. Soc. Ent. Ross. Horæ, 22, **1888**, 350–361.

—— Zwei neue Melolonthiden aus Neu-Guinea. Wien. Ent. Ztg., 8, **1889**, 273–274.

—— Melolonthiden aus Marocco, Algier, Tunis und Tripolis, gesammelt von Herrn Premier-Lieutenant a. D. M. Quedenfeldt. [1890.] Berlin. Ent. Ztschr., 33, **1889**, 325–334.

—— Amphimallus assimilis, *Herbst*, und die Varietäten desselben. Ent. Nachr., 16, **1890**, 13–14.

—— Eine neue Chrysomela aus Italien. Ent. Nachr., 16, **1890**, 14–15.

—— Ueber einige Arten der Gattung Polyphylla. Ent. Nachr., 16, **1890**, 123–127.

—— Ueber die Gattung Granida und Beschreibung einer neuen Polyphylla. Ent. Nachr., 16, **1890**, 197–199.

—— Die Arten der Gattung Triodonta, *Muls.* (Melolonthidarum Genus.) Wien. Ent. Ztg., 9, **1890**, 81–86.

— Notizen über Melolonthiden. Wien. Ent. Ztg., 9, **1890**, 137–138.

—— Diagnosen neuer Melolonthiden aus Ecuador und Madagascar. [1890.] Zürich, Soc. Ent., 5, [**1891**], 34.

—— Die Gattungen Lasiopsis, Asceptonycha und Lachnota im Lichte des Prioritätsdogmas. Ent. Nachr., 17, **1891**, 4–6.

—— Rhizotrogus limbatipennis, *Villa*, ein Versuch diese Art zu deuten. Ent. Nachr., 17, **1891**, 55–57.

—— Ueber Polyphylla, Anoxia und Cyphonotus. Eine Erwiderung an Herrn Dr. Kraatz. Ent. Nachr., 17, **1891**, 210–216.

—— Drei neue Rhizotrogus-Arten aus dem Orient. Ent. Nachr., 17, **1891**, 216–219.

—— Ueber Rhizotrogus ater, fuscus, furvus und limbatipennis. Ent. Nachr., 17, **1891**, 219–220.

—— Rhizotrogus ater und fuscus, eine Erwiderung an Herrn Dr. Kraatz. Ent. Nachr., 17, **1891**, 361–365.

—— Holomelia mirabilis, eine Curiosität unter den Coleopteren. Ent. Nachr., 17, **1891**, 313–316.

—— Die Erichson'schen Coleopteren-Gattungen Monotropus und Lasiopsis. Ent. Nachr., 17, **1891**, 316–319.

—— Ueber die Gattungen Encya und Empecta. [1891.] Zürich, Soc. Ent., 6, [**1892**], 97–98.

—— Ueber einige neue Gattungen und Arten der Melolonthiden. Ent. Nachr., 18, **1892**, 151–159.

—— Ueber die Verbreitung der Melolonthiden auf der Erde. Zürich, Soc. Ent., 6, [**1892**], 185–187; 7, [**1893**], 1–3, 9–11.

— Beitrag zur Kenntniss der Gattungen Lepidiota und Leucopholis. [1892.] Berlin. Ent. Ztschr., 37, **1893**, 33–62, 412.

—— Die Arten der Coleopteren-Gattung Brahmina, *Bl.* [1892.] Berlin. Ent. Ztschr., 37, **1893**, 79–124, 412.

—— Neue Arten der Coleopteren-Gattung Holotrichia (Lachnosterna). [1892.] Berlin. Ent. Ztschr., 37, **1893**, 159–192, 412.

— Neue Adoretus-Arten von Ost-Bengalen aus der Ausbeute des Herrn L. Cardon, S. J. Brux., Soc. Ent. Ann., 37, **1893**, 140–143.

—— Zur Melolonthiden Gattung Brahmina gehört Cryphæobius, *Krtz.* Ent. Nachr., 19, **1893**, 91–96, 109–110.

Ein neuer Rhizotrogus Italiens aus der Gruppe des vicinus und Uebersichtstabelle der Arten dieser Gruppe. Ent. Nachr., 19, **1893**, 188–191.

—— Melolonthiden von Borneo und einigen anderen malayischen Inseln aus einer Sendung der Herren Dr. O. Staudinger und A. Bang-Haas. [1894.] Berlin. Ent. Ztschr., 38, **1893**, 347–358.

—— Zur Kenntniss der Adoretiden Madagascars. [1893.] Zürich, Soc. Ent., 8, [**1894**], 1–2, 9–10.

—— Die Melolonthiden der palaearctischen und orientalischen Region im Königlichen Naturhistorischen Museum zu Brüssel. Brux., Soc. Ent. Mém., 2, **1894**, 87 pp.

—— Einiges über die Rhizotrogiden und den Berliner Gerichtshof für entomologischen Angelegenheiten. Ent. Nachr., 20, **1894**, 177–183.

—— Revision der Gattung Cyphonotus, *Duv.* Stettin, Ent. Ztg., 55, **1894**, 264–272, 397.

—— Ein neuer Rhizotrogus aus Spanien. Stettin, Ent. Ztg., 55, **1894**, 272–274.

— Zur Kenntniss der Melolonthiden Sumatra's. Stettin, Ent. Ztg., 55, **1894**, 274–280.

—— Uebersicht der Arten der Coleopteren-Gattung Lepidioderma, *Wath.* [1894.] Zürich, Soc. Ent., 9, [**1895**], 41–42.

—— [Esplorazione del Giuba e dei suoi affluenti compiuta dal Cap. V. Böttego durante gli anni 1892–93 sotto gli auspicii della Società Geographica Italiana. Risultati zoologici.] XIII. Melolonthini e Rutelini. Genova Mus. Civ. Ann., 35, **1895**, 215–226.

—— Insectes du Bengale. Melolonthidæ. Brux., Soc. Ent. Ann., 40. **1896**, 150–164.

—— Trigonochilus, *n. g.* Vertreter einer neuen Ruteliden-Gruppe aus der Verwandtschaft der Anoplognathiden. Ent. Nachr., 22, **1896**, 33–37.

—— Neue Melolonthiden aus Africa und Asien. Stettin, Ent. Ztg., 57, **1896**, 178–205.

—— Die Coleopteren-Gattung Trigonocnemis, *Krtz.*, gehört nicht zu den Rhizotrogiden, sondern zu den Anomaliden. Wien. Ent. Ztg., 15, **1896**, 116.

— Ueber die Verbreitung des Cyphonotus testaceus (Coleopt.-Melolonth.) und seine Hinterschienen. [1897.] Berlin. Ent. Ztschr., 41, **1896**, 315–317.

—— Zwei neue Melolonthiden aus Beludschistan. [1897.] Berlin. Ent. Ztschr., 41, **1896**, 318–322.

—— Neue Coleopteren-Gattungen und -Arten aus Madagaskar, Afrika und Asien, zur Familie der Melolonthiden gehörend. [1897.] Berlin. Ent. Ztschr., 41, **1896**, 339–363.

—— Die Synonymie zweier Lepidiota-Arten. [1897.] Berlin. Ent. Ztschr., 41, **1896**, 363–364.

—— Neue Gattungen und Arten der Melolonthiden aus Afrika und Asien. Stettin, Ent. Ztg., 58, **1897**, 96–120.

—— Die Serica-Arten der Erde. Berlin. Ent. Ztschr., 42, **1898**, 345–438; 43, **1899**, 205–404, 431; 44, **1899**, 161–272; 45, **1900**, 39–96.

—— Melolontha proboscidea, *Fab.*, ist keine Triodonta. Ent. Nachr., 24, **1898**, 83–86.

—— Einige neue Melolonthiden. Stettin, Ent. Ztg., 59, **1898**, 236–248.

—— Melolonthiden aus Afrika. Stettin, Ent. Ztg., 59, **1898**, 333–394.

—— Die Coleopteren-Gattung Oxychirus, *Quedf.*, gehört nicht zu den Melolonthiden, sondern zu den Phaenomeriden. Zürich, Soc. Ent., 12, [**1898**], 185–187.

—— Melolonthiden der Collection Colmant von Bahr-al-

Ghazal, von Ober M'Bomu und vom oberen Uellé. Brux., Soc. Ent. Ann., 43, **1899**, 377–387.

—— Sur quelques nouvelles espèces de Mélolonthides (genre Serica) de Cambodge et du Siam appartenant au Muséum de Paris. Paris, Mus. Hist. Nat. Bull., 5, **1899**, 414–416.

—— Diagnoses Melolonthidarum novarum ex Indiâ orientali. [1899.] Indian Mus. Notes, 4, **1900**, 176–179.

—— [Diagnoses d'insectes recueillis par l'Expédition Antarctique Belge. Coléoptères.] Scarabæidæ. Brux., Soc. Ent. Ann., 44, **1900**, 109–110.

—— Contribution à l'étude de la faune de Sumatra. Melolonthiden gesammelt von J. L. Weyers. Brux., Soc. Ent. Mém., 7, **1900**, 141–155.

—— [Semon's zoologische Forschungsreisen in Australien und dem Malayischen Archipel. Coleopteren. Neubeschreibungen der] Melolonthiden. [1900.] Jena Denkschr., 8, **1894 1903**, 622–624.

—— Die Melolonthiden Ceylon's unter besonderer Berücksichtigung der von Herrn Dr. Horn gesammelten Arten. Stettin, Ent. Ztg., 61, **1900**, 341–363.

—— Diagnoses Melolonthidarum novarum ex Bangalore. [1900.] Indian Mus. Notes, 5, **1903**, 38.

Brenske, *Ernst, & Reitter, Edmund.* Neuer Beitrag zur Käferfauna Griechenlands. [Unter Mitwirkung der Herren Dr. Eppelsheim und L. Ganglbauer.] Deutsche Ent. Ztschr., 28, **1884**, 17–100.

—— Ægialitis meloda circumcincta on the coast of South Carolina. Auk, 3, **1886**, 408.
—— Vireo solitarius alticola at Charleston, South Carolina. Auk, 3, **1886**, 410.
—— Ammodramus Lecontei near Charleston, South Carolina. Auk, 3, **1886**, 410.
—— Occurrence of the prothonotary warbler (Protonotaria citrea) in Massachusetts. Auk, 3, **1886**, 410–411, 487–488.
— An interesting specimen of Helminthophila. Auk, 3, **1886**, 411–412.
—— Occurrence of the yellow-billed tropic bird in Florida. Auk, 3, **1886**, 481.
—— Breeding of the white-faced glossy ibis in Florida. Auk, 3, **1886**, 481–482.
—— A red-headed black vulture. Auk, 3, **1886**, 483–484.
—— Three new forms of North American birds. Auk, 4, **1887**, 145–149.
—— The common murre (Uria troille) and the razor-billed auk (Alca torda) on the New England coast. Auk, 4, **1887**, 158.
—— Further notes on the masked bob-white (Colinus Ridgwayi). Auk, 4, **1887**, 159–160.
—— Capture of a third specimen of the short-tailed hawk (Buteo brachyurus) in Florida. Auk, 4, **1887**, 160.
—— A third New England specimen of Swainson's hawk (Buteo Swainsoni). Auk, 4, **1887**, 160.
—— Capture of a fish crow (Corvus ossifragus) at Wareham, Massachusetts. Auk, 4, **1887**, 162.
—— The redpolls of Massachusetts. Auk, 4, **1887**, 163–164.
—— An overlooked specimen of Bachman's warbler. Auk, 4, **1887**, 165.
—— Discovery of the nest and eggs of the western warbler (Dendroica occidentalis). Auk, 4, **1887**, 166–167.
—— Hummingbirds feeding their young on insects. Auk, 4, **1887**, 255.
—— Scarcity of adult birds in autumn. Auk, 4, **1887**, 268–269.
—— Descriptions of supposed new birds from Lower California, Sonora, and Chihuahua, Mexico, and the Bahamas. Auk, 5, **1888**, 82–95.
—— The prairie horned lark (Otocoris alpestris praticola) on the coast of Massachusetts. Auk, 5, **1888**, 111–112; 6, **1889**, 71–72.
—— On three apparently new subspecies of Mexican birds. Auk, 5, **1888**, 136–139.
—— Quiscalus quiscula aglæus at Charleston, South Carolina. Auk, 5, **1888**, 208.
—— Breeding of the golden-crested kinglet (Regulus satrapa) in Worcester county, Massachusetts, with a description of its nest and eggs. Auk, 5, **1888**, 337–344.
—— Notes on the birds of Winchendon, Worcester county, Massachusetts. Auk, 5, **1888**, 386–393.
—— A second Maine (and fourth New England) specimen of Swainson's hawk (Buteo Swainsoni). Auk, 5, **1888**, 424.
—— An unusual nest of the Parula warbler. Ornith. Ool., 13, **1888**, 46–47.
—— Nest and eggs of the mountain solitary Vireo. Ornith. Ool., 13, **1888**, 113.
— The present status of Forster's tern as a bird of New England. Auk, 6, **1889**, 66–67.
—— Occurrence of the western sandpiper (Ereunetes occidentalis) in numbers on the coast of Massachusetts. Auk, 6, **1889**, 69.
—— Krider's hawk (Buteo borealis Kriderii) on the coast of Georgia. Auk, 6, **1889**, 70.
—— Descriptions of supposed new birds from western North America and Mexico. Auk, 6, **1889**, 86–98.
—— Dendroica coronata feeding upon oranges. Auk, 6, **1889**, 279.
—— The present status of the wild pigeon (Ectopistes migratorius) as a bird of the United States, with some notes on its habits. Auk, 6, **1889**, 286–291.
—— Nesting habits of the parrakeet (Conurus carolinensis). Auk, 6, **1889**, 336–337.
—— Melanerpes carolinus eating oranges. Auk, 6, **1889**, 337–338.
—— The little brown crane (Grus canadensis) in Rhode Island. Auk, 7, **1890**, 89.
—— Capture of a Canada jay (Perisoreus canadensis) near Cambridge, Massachusetts. Auk, 7, **1890**, 91–92.
—— Bullock's oriole in Maine. Auk, 7, **1890**, 92.
—— Recent occurrence of the turkey vulture in eastern Massachusetts. Auk, 7, **1890**, 204–205.

— Capture of a third specimen of the barn owl in Massachusetts. Auk, 7, 1890, 205.
—— Food of young hummingbirds. Auk, 7, 1890, 206–207.
—— The purple grackle at Charleston, South Carolina. Auk, 7, 1890, 208.
— The Acadian sharp-tailed sparrow and Scott's seaside sparrow on the coast of South Carolina. Auk, 7, 1890, 212.
—— Summer robin roosts. Auk, 7, 1890, 360–373.
—— A new subspecies of the solitary sandpiper. Auk, 7, 1890, 377–379.
—— Breeding of the pileated woodpecker in Worcester county, Massachusetts. Auk, 7, 1890, 400–401.
—— A study of Florida gallinules, with some notes on a nest found at Cambridge, Massachusetts. Auk, 8, 1891, 1–7.
—— Descriptions of seven supposed new North American birds. Auk, 8, 1891, 139–149, 237.
—— Notes on Bachman's warbler (Helminthophila Bachmani). Auk, 8, 1891, 149–157.
—— The whistling swan in Massachusetts. Auk, 8, 1891, 232.
—— Some additional eastern records of Swainson's hawk (Buteo Swainsoni). Auk, 10, 1893, 82–83.
—— Description of a new hummingbird from northern Mexico. Auk, 10, 1893, 214–215.
— Description of a new marsh wren, with critical notes on Cistothorus Mariannæ, *Scott.* Auk, 10, 1893, 215–219.
—— A brood of young flickers (Colaptes auratus) and how they were fed. Auk, 10, 1893, 231–236, 365.
—— On the occurrence of certain birds in British Columbia. Auk, 10, 1893, 236–237.
—— The Ipswich sparrow (Ammodramus princeps) on the coast of Georgia. Auk, 10, 1893, 302, 365.
— Notes and song-flight of the woodcock (Philohela minor). Auk, 11, 1894, 291–298.
—— Breeding of the prairie horned lark (Otocoris alpestris praticola) near Pittsfield, Mass. Auk, 11, 1894, 326–327.
—— Note on the habits of the northern shrike (Lanius borealis). Auk, 11, 1894, 329–330.
—— A remarkable plumage of the prairie hen (Tympanuchus americanus). Auk, 12, 1895, 99–100.
—— Notes on certain flycatchers of the genus Empidonax. Auk, 12, 1895, 157–163.
—— The white gyrfalcon in New England. Auk, 12, 1895, 180.
—— Second occurrence of Harris's sparrow (Zonotrichia querula) in British Columbia. Auk, 12, 1895, 182.
— A ground nest of the black-throated green warbler. Auk, 12, 1895, 184–185.
—— A remarkable flight of pine grosbeaks (Pinicola enucleator). Auk, 12, 1895, 245–256.
—— Descriptions of a new warbler and a new song sparrow. Auk, 13, 1896, 44–47.
—— Occurrence of the wood ibis (Tantalus loculator) in Bristol county, Massachusetts. Auk, 13, 1896, 341.
—— On the nomenclature of certain forms of the downy woodpecker (Dryobates pubescens). Auk, 14, 1897, 80–82.
—— The lesser snow goose in New England. Auk, 14, 1897, 207.
—— The Bahaman swallow in Florida. Auk, 14, 1897, 221–222.
—— Geotrygon chrysia again at Key West. Auk, 15, 1898, 185.
—— Occurrence of the spotted screech-owl (Megascops aspersus) in Arizona. Auk, 15, 1898, 186.
—— Lewis's woodpecker storing acorns. Auk, 15, 1898, 188.
—— Revival of the sexual passion in birds in autumn. Auk, 15, 1898, 194–195.
—— The short-eared owls of Muskeget Island. Auk, 15, 1898, 211–213.
—— Notes on the breeding habits of the American golden-eyed duck or whistler (Clangula clangula americana). Auk, 17, 1900, 207–216.
Brewster, *William,* & **Chapman,** *Frank M.* Notes on the birds of the lower Suwanee river. Auk, 8, 1891, 125–138.
—— Notes on birds observed in Trinidad. Auk, 12, 1895, 201–211, 418.

Bristowe, *John S[yer]*, & **Horsley,** *Victor*. A case of paralytic rabies in man, with remarks. [1888.] Clin. Soc. Trans., 22, 1889, 38–47.

Britcher, *Horace W.* An occurrence of albino eggs of the spotted salamander, Amblystoma punctatum, *L.* Amer. Micr. Soc. Trans., 21, 1899, 69–74.

British Association. Joint discussion [of Section A.] with Section G. on lightning-conductors. Brit. Ass. Rep., 1888, 591–615.

—— Discussion on coral reefs. Brit. Ass. Rep., 1888, 718–723.

—— Discussion on the theory of solution. Brit. Ass. Rep., 1890, 311–338.

—— A discussion on symbiotic fermentation. Brit. Ass. Rep., 1899, 692–703.

British Association, *Committees*. Report of the Committee appointed to consider and advise on the best means for facilitating the adoption of the metric system of weights and measures in Great Britain. Brit. Ass. Rep., 1884, 27–28.

—— [Reports] of the Committee appointed for the purpose of considering the best methods of recording the direct intensity of solar radiation. Brit. Ass. Rep., 1884, 28–29; 1885, 156; 1886, 63–64; 1887, 32–33; 1889, 40–41; 1891, 160; 1892, 158–165; 1893, 144–146; 1894, 106; 1896, 241–243; 1900, 36–45.

—— [Reports] of the Committee appointed for the purpose of constructing and issuing practical standards for use in electrical measurements. Brit. Ass. Rep., 1884, 29–32; 1885, 31–33; 1886, 145–150; 1887, 206–208; 1888, 55–69; 1889, 41–44; 1890, 95–138; 1891, 152–160; 1892, 132–156; 1893, 127–140; 1894, 117–143; 1895, 195–208; 1896, 150–165; 1897, 206–218; 1898, 145–158; 1899, 240–245; 1900, 53–56.

—— [Reports] of the Committee for the harmonic analysis of tidal observations. Brit. Ass. Rep., 1884, 33–35; 1885, 35–60; 1886, 40–58.

—— [Reports] of the Committee appointed for the purpose of co-operating with the directors of the Ben Nevis Observatory in making meteorological observations on Ben Nevis. Brit. Ass. Rep., 1884, 36–37; 1885, 90–92; 1886, 58–63; 1887, 34–39; 1888, 49–54; 1889, 315–318; 1890, 174–183; 1891, 140–146; 1892, 68–72; 1893, 280–286; 1894, 108–116; 1895, 186–194; 1896, 166–172; 1897, 219–226; 1898, 277–283; 1899, 250–255; 1900, 46–52.

—— Fourth report of the Committee appointed for the purpose of investigating the practicability of collecting and identifying meteoric dust, and of considering the question of undertaking regular observations in various localities. Brit. Ass. Rep., 1884, 38.

—— [Reports] of the Committee reappointed for the purpose of drawing up a statement of the varieties of chemical names which have come into use, for indicating the causes which have led to their adoption, and for considering what can be done to bring about some convergence of the views on chemical nomenclature obtaining among English and foreign chemists. Brit. Ass. Rep., 1884, 39–74; 1885, 262–275.

—— [Reports] of the Committee on the fossil Phyllopoda of the Palæozoic rocks. Brit. Ass. Rep., 1884, 75–95; 1885, 326–361; 1886, 229–234; 1887, 60–69; 1888, 173–181; 1889, 63–68; 1890, 424–428; 1892, 298–300; 1893, 465–470; 1894, 271–272; 1895, 416–426; 1897, 343–346; 1898, 519–521; 1899, 403–405.

—— [Reports] of the Committee appointed for the purpose of investigating the circulation of underground waters in the permeable formations of England and Wales, and

the quantity and character of the water supplied to various towns and districts from these formations. Brit. Ass. Rep., **1884**, 96–97; **1885**, 380–395; **1886**, 235–241; **1887**, 358 414; **1889**, 71–89; **1890**, 352 375; **1891**, 300-312; **1892**, 264–266; **1893**, 463–464; **1894**, 283–302; **1895**, 393–402.

—— Fifth and last report of the Committee appointed for the purpose of reporting on fossil Polyzoa. Brit. Ass. Rep., **1884**, 97–219.

—— [Reports] of the Committee appointed for the purpose of recording the position, height above the sea, lithological characters, size, and origin of the erratic blocks of England, Wales, and Ireland, reporting other matters of interest connected with the same, and taking measures for their preservation. Brit. Ass. Rep., **1884**, 219–221; **1885**, 322–325; **1886**, 223–226; **1887**, 236–247; **1888**, 101–124; **1889**, 115–127; **1890**, 340-352; **1891**, 276–299; **1892**, 267–289; **1893**, 514–523; **1895**, 426–430, 430–436.

—— [Reports] of the Committee appointed for the purpose of inquiring into the rate of erosion of the sea coasts of England and Wales, and the influence of the artificial abstraction of shingle or other material in that action. Brit. Ass. Rep., **1884**, 238–240; **1885**, 404–465; **1886**, 847–862; **1888**, 898–933; **1895**, 352–392.

—— [Reports] of the Committee appointed for the purpose of investigating the earthquake [and volcanic] phenomena of Japan. Brit. Ass. Rep., **1884**, 241–252; **1885**, 362–379; **1886**, 413–431; **1887**, 212–226; **1888**, 422–437; **1889**, 295–314; **1890**, 160–172; **1891**, 123–129; **1892**, 93–129; **1893**, 214–226; **1895**, 81–113, 113–183.

—— [Reports] of the Committee appointed for the purpose of arranging for the occupation of a table at the Zoological Station at Naples. Brit. Ass. Rep., **1884**, 252–263; **1885**, 466–473; **1886**, 254–263; **1887**, 77–91; **1888**, 150–163; **1889**, 95–111; **1890**, 449–464; **1891**, 365–382; **1892**, 344–353; **1893**, 537–545; **1894**, 335–343; **1895**, 474–479; **1896**, 478–484; **1897**, 353–358; **1898**, 587–597; **1899**, 431–436; **1900**, 380–392.

—— Fourth report of the Committee appointed for the purpose of investigating the natural history of Timor Laut. Brit. Ass. Rep., **1884**, 263–265.

—— [Reports] of the Committee appointed for the purpose of obtaining.....observations on the migration of birds at lighthouses and lightvessels, and of reporting on the same. Brit. Ass. Rep., **1884**, 266–270; **1885**, 685–689; **1886**, 264–267; **1887**, 70–73; **1888**, 146–149; **1896**, 451–477; **1900**, 403 413.

—— [Reports] of the Committee for promoting the survey of eastern Palestine. Brit. Ass. Rep., **1884**, 272–279; **1885**, 691.

—— Report of the Committee appointed for the purpose of defraying the expenses of completing the preparation of the final report of the Anthropometric Committee. Brit. Ass. Rep., **1884**, 279–282.

—— Second report of the Committee appointed for the purpose of determining a gauge for the manufacture of the various small screws used in telegraphic and electrical apparatus, in clockwork and for other analogous purposes. Brit. Ass. Rep., **1884**, 287–293.

— Report of the Committee appointed for the purpose of reporting upon the present state of our knowledge of spectrum analysis. Brit. Ass. Rep., **1884**, 295–350.

—— [Reports] of the Committee appointed for the purpose of preparing a new series of wave-length tables of the spectra of the elements [and compounds]. Brit. Ass. Rep., **1884**, 351–446; **1885**, 288–322; **1886**, 167–204; **1890**, 224–261; **1891**, 161–263; **1892**, 193–260; **1893**, 387–437; **1894**, 248–267; **1895**, 273–340; **1896**, 273–340; **1897**, 75 127; **1898**, 313–433; **1899**, 257 315; **1900**, 193 297.

—— [Reports] of the Committee appointed for the purpose of reporting on standards of white light. Brit. Ass. Rep., **1885**, 61–64; **1888**, 39–48.

— [Reports] of the Committee appointed for the purpose of considering the best means of comparing and reducing magnetic observations. Brit. Ass. Rep., **1885**, 65–89; **1886**, 64–99; **1887**, 320–335; **1888**, 28–38; **1889**, 49–50; **1890**, 172–174; **1891**, 149–151; **1895**, 209–227; **1896**, 231–241; **1898**, 80–136.

—— [Reports] of the Committee appointed for the purpose of investigating the rate of increase of underground temperature downwards in various localities of dry land and under water. Brit. Ass. Rep., **1885**, 93–97; **1889**, 35–40; **1892**, 129–131; **1894**, 107; **1895**, 75–77.

—— Report of the Committee appointed to investigate by means of photography the ultra-violet spark spectra emitted by metallic elements, and their combinations under varying conditions. Brit. Ass. Rep., **1885**, 276–284.

—— [Reports] of the Committee appointed for the purpose of investigating the subject of vapour pressures and refractive indices of salt solutions. Brit. Ass. Rep., **1885**, 284 288; **1886**, 204–207.

— [Reports] of the Committee for the investigation of the volcanic phenomena of Vesuvius [and its neighbourhood]. Brit. Ass. Rep., **1885**, 395–396; **1886**, 226–228; **1887**, 226–229; **1888**, 320–326; **1889**, 283–294; **1890**, 397–410; **1891**, 312–320; **1892**, 338–343; **1893**, 471–473; **1894**, 315–318; **1895**, 351.

—— [Reports] of the Committee on the fossil plants of the Tertiary and Secondary beds of the United Kingdom. Brit. Ass. Rep., **1885**, 396–404; **1886**, 241–250; **1887**, 229.

—— [Reports] of the Committee appointed for the purpose of promoting the establishment of a Marine Biological Station at Granton, Scotland. Brit. Ass. Rep., **1885**, 474–478; **1886**, 251–254; **1887**, 91–94.

—— Report of the Committee appointed for the purpose of reporting on recent Polyzoa. Brit. Ass. Rep., **1885**, 481–680.

—— Third report of the Committee appointed for the purpose of exploring Kilima-njaro and the adjoining mountains of Equatorial Africa. Brit. Ass. Rep., **1885**, 681–685.

— [Reports] of the Committee appointed for the purpose of investigating and publishing reports on the physical characters, languages, industrial and social condition of the north-western tribes of the Dominion of Canada. Brit. Ass. Rep., **1885**, 696–708; **1887**, 173–200; **1888**, 233–255; **1889**, 797–900; **1890**, 553–715; **1891**, 407–449; **1892**, 545–615; **1894**, 453–463; **1895**, 522–592; **1896**, 569–591; **1898**, 628 688.

—— [Reports] of the Committee appointed for the purpose of inviting designs for a good differential gravity meter in supersession of the pendulum, whereby satisfactory results may be obtained at each station of observation in a few hours, instead of the many days over which it is necessary to extend pendulum observations. Brit. Ass. Rep., **1886**, 141–145; **1887**, 41.

—— Report of the Committee appointed for the reduction and tabulation of tidal observations in the English Channel, made with the Dover tide-gauge, and for connecting them with observations made on the French coast. Brit. Ass. Rep., **1886**, 151–166.

—— [Reports] of the Committee appointed for the purpose of investigating certain physical constants of solution, especially the expansion of saline solutions. Brit. Ass. Rep., **1886**, 207–213; **1887**, 48–55.

—— [Reports] (provisional) of the Committee appointed to investigate the influence of the silent discharge of electricity on oxygen and other gases. Brit. Ass. Rep., **1886**, 213–216; **1889**, 54–55.

—— Report of the Committee appointed for the purpose of investigating isomeric naphthalene derivatives. Brit. Ass. Rep., **1886**, 216–219.

—— [Reports] of the Committee appointed for the purpose of exploring the caves of North Wales. Brit. Ass. Rep., **1886**, 219–223; **1887**, 301–303.

—— [Reports] of the Committee appointed for the purpose of continuing the researches on food-fishes and invertebrates at the St. Andrews Marine Laboratory. Brit. Ass. Rep., **1886**, 268–270; **1888**, 141–145.

—— [Reports] of the Committee appointed to organise a systematic investigation of the depth of the permanently frozen soil in the polar regions, its geographical limits and relation to the present pole of greatest cold. Brit. Ass. Rep., **1886**, 271–276; **1887**, 152–158.

—— [Reports] of the Committee appointed for the purpose of considering the subject of electrolysis in its physical and chemical bearings. Brit. Ass. Rep., **1886**, 308–413; **1887**, 336–358; **1888**, 339–360; **1889**, 223–225; **1890**, 138–144; **1891**, 122; **1892**, 72.

—— [Reports] of the Committee appointed for the purpose of investigating the influence of silicon on the properties of [iron and] steel. Brit. Ass. Rep., **1887**, 43–47; **1888**, 69–72; **1889**, 267–282; **1890**, 262.

—— [Reports] of the Committee appointed for the purpose of investigating the nature of solution. Brit. Ass. Rep., **1887**, 55–56; **1888**, 93–94; **1889**, 53; **1890**, 310; **1892**, 261–262.

—— Report of the Committee appointed for the purpose of reporting on the bibliography of solution. Brit. Ass. Rep., **1887**, 57–59.

—— Report of the Committee appointed for the purpose of investigating the flora and fauna of the Cameroons Mountain. Brit. Ass. Rep., **1887**, 73–77.

—— Report of the Committee appointed for the purpose of considering the question of accurately defining the term British as applied to the marine fauna and flora of our islands. Brit. Ass. Rep., **1887**, 95.

—— Report of the Committee appointed for the purpose of investigating the mechanism of the secretion of urine. Brit. Ass. Rep., **1887**, 131–134.

—— Report of the Committee appointed for the purpose of preparing a report on the herds of wild cattle in Chartley Park, and other parks in Great Britain. Brit. Ass. Rep., **1887**, 135–145.

—— [Reports] of the Committee appointed for the purpose of investigating the physiology of the lymphatic system. Brit. Ass. Rep., **1887**, 145–151; **1888**, 363–366; **1889**, 128–131.

—— Final report of the Committee appointed for the purpose of taking into consideration the combination of the Ordnance and Admiralty Surveys, and the production of a bathy-hypsographical map of the British Islands. Brit. Ass. Rep., **1887**, 160–163.

—— [Reports] of the Committee appointed for the purpose of ascertaining and recording the localities in the British Islands in which evidences of the existence of prehistoric inhabitants of the country are found. Brit. Ass. Rep., **1887**, 168–172; **1888**, 289–316; **1889**, 318–322; **1890**, 548–549.

—— [Reports] of the Committee for the purpose of reporting upon the manure gravels of Wexford. Brit. Ass. Rep., **1887**, 209–211; **1888**, 133–141; **1889**, 92–93; **1890**, 410–424.

—— [Reports] of the Committee appointed to undertake the microscopical examination of the older rocks of Anglesey. Brit. Ass. Rep., **1887**, 230–231; **1888**, 367–420.

—— Report of the Committee for the purpose of investigating the Carboniferous flora of Halifax and its neighbourhood. Brit. Ass. Rep., **1887**, 235–236.

—— [Reports] of the Committee appointed for the purpose of investigating the best methods of ascertaining and measuring variations in the value of the monetary standard. Brit. Ass. Rep., **1887**, 247–301; **1888**, 181–219; **1889**, 133–164; **1890**, 485–487.

—— [Reports] of the Committee appointed for the purpose of exploring the higher Eocene beds of the Isle of Wight. Brit. Ass. Rep., **1887**, 414–423; **1889**, 89–92.

—— Report of the Committee appointed for the purpose of obtaining information with reference to the endurance of metals under repeated and varying stresses, and the proper working stresses on railway bridges and other structures subject to varying loads. Brit. Ass. Rep., **1887**, 424–438.

—— Report of the Committee appointed for the purpose of procuring, with the help of Mr. Petrie, racial photographs from the ancient Egyptian pictures and sculptures. Brit. Ass. Rep., **1887**, 439–458.

—— [Reports] of the Committee appointed for the purpose of inquiring into and reporting upon the present methods of teaching chemistry. Brit. Ass. Rep., **1888**, 73–89; **1889**, 228–267; **1890**, 265–309.

—— [Reports] of the Committee appointed for the investigation of the action of light on the hydracids of halogens in presence of oxygen. Brit. Ass. Rep., **1888**, 89–92; **1889**, 59–62; **1890**, 263–264; **1893**, 381.

—— [Reports] of the Committee appointed for the purpose of investigating the flora of the Carboniferous rocks of Lancashire and West Yorkshire. Brit. Ass. Rep., **1888**, 150; **1889**, 69–70.

—— [Reports] of the Committee appointed to arrange an investigation of the seasonal variations of temperature in lakes, rivers, and estuaries in various parts of the United Kingdom. Brit. Ass. Rep., **1888**, 326–327; **1889**, 44–48; **1890**, 92–94; **1891**, 454–510.

—— [Reports] of the Committee appointed for the purpose of investigating an ancient sea-beach near Bridlington Quay. Brit. Ass. Rep., **1888**, 328–338; **1890**, 375–377.

—— Report of the Committee appointed for the purpose of exploring the flora of the Bahamas. Brit. Ass. Rep., **1888**, 361–363.

—— [Reports] of the Committee appointed for the purpose of continuing the preparation of a report on our present knowledge of the flora of China. Brit. Ass. Rep., **1888**, 420–421; **1889**, 112–113.

— [Reports] of the Committee appointed for the purpose of reporting on the present state of our knowledge of the zoology and botany of the West India Islands, and taking steps to investigate ascertained deficiencies in the fauna and flora. Brit. Ass. Rep., **1888**, 438–464; **1889**, 93–94; **1890**, 447–449; **1891**, 354–357; **1892**, 353–355; **1893**, 524–525; **1895**, 472; **1896**, 493–494; **1899**, 441–443.

—— [Reports] of the Committee appointed for the purpose of considering the possibility of calculating tables of certain mathematical functions, and, if necessary, of taking steps to carry out the calculations and to publish the results in an accessible form. Brit. Ass. Rep., **1889**, 28–32; **1893**, 227–279; **1896**, 98–149; **1898**, 145.

—— [Reports] of the Committee appointed to investigate the molecular phenomena connected with the magnetisation of iron. Brit. Ass. Rep., **1889**, 33–34; **1890**, 145–160.

—— [Reports] of the Committee appointed to consider the best method of establishing an international standard for the analysis of iron and steel. Brit. Ass. Rep., **1889**, 50–53; **1890**, 262–263; **1892**, 186–190; **1893**, 437–438; **1894**, 237.

—— Report of the Committee appointed to confer with the Committee of the American Association for the Advancement of Science with a view of forming a uniform system of recording the results of water analysis. Brit. Ass. Rep., **1889**, 55–58.

—— [Reports] of the Committee appointed to improve and experiment with a deep-sea tow-net, for opening and closing under water. Brit. Ass. Rep., **1889**, 111–112; **1890**, 471–472.

—— Report of the Committee appointed to investigate the geography and geology of the Atlas ranges in the empire of Morocco. Brit. Ass. Rep., **1889**, 165–172.

—— Report of the Committee appointed to investigate the habits and customs and physical characteristics of the nomad tribes of Asia Minor, and to excavate on sites of ancient occupation. Brit. Ass. Rep., **1889**, 176–186.

—— First report of the Committee appointed to report on the development of graphic methods in mechanical science. Brit. Ass. Rep., **1889**, 322–327.

—— [Reports] of the Committee appointed to investigate the action of waves and currents on the beds and foreshores of estuaries by means of working models. Brit. Ass. Rep., **1889**, 327–343; **1890**, 512–534; **1891**, 386–404.

—— [Reports] of the Committee for the continuation of the bibliography of spectroscopy. Brit. Ass. Rep., **1889**, 344–422; **1894**, 161–236; **1898**, 439–519; **1900**, 150.

—— Report of the Committee appointed for the purpose of calculating the anthropological measurements taken at Bath. Brit. Ass. Rep., **1889**, 423–435.

—— [Reports] of the Committee for the purpose of collecting information as to the disappearance of native plants from their local habitats. Brit. Ass. Rep., **1889**, 435–440; **1890**, 465–470; **1891**, 359–363.

—— Sixth report of the Committee appointed for the purpose of promoting tidal observations in Canada. Brit. Ass. Rep., **1890**, 183–184.

— [Reports] of the Committee appointed to prepare a report on the Cretaceous Polyzoa. Brit. Ass. Rep., **1890**, 378–396; **1892**, 301–337.

—— [Reports] of the Committee to arrange for the collection, preservation, and systematic registration of photographs of geological interest in the United Kingdom. Brit. Ass. Rep., **1890**, 429–444; **1891**, 321–333; **1892**, 290–298; **1893**, 473–482; **1894**, 274–283; **1895**, 404–414; **1896**, 357–365; **1897**, 298–332; **1898**, 530–546; **1899**, 377–397; **1900**, 350–369.

—— [Reports] of the Committee appointed for the purpose of arranging for the occupation of a table at the laboratory of the Marine Biological Association at Plymouth. Brit. Ass. Rep., **1890**, 444–447; **1892**, 356–363.

—— Report of the Committee appointed for the purpose of calculating the anthropological measurements taken at the Newcastle Meeting of the Association in 1889. Brit. Ass. Rep., **1890**, 549–552.

—— Report of a Committee on the present state of our knowledge of thermodynamics, specially with regard to the second law. Brit. Ass. Rep., **1891**, 85–122.

—— [Reports] of the Committee appointed to consider the application of photography to the elucidation of meteorological phenomena. Brit. Ass. Rep., **1891**, 130–139; **1892**, 77–92; **1893**, 140–144; **1894**, 143–144; **1895**, 80–81; **1896**, 172–180; **1897**, 128; **1898**, 283–284; **1899**, 238–239; **1900**, 56–58.

—— Report of the Committee appointed to investigate the discharge of electricity from points. Brit. Ass. Rep., **1891**, 139–140.

—— [Reports] of the Committee appointed to co-operate with Dr. C. Piazzi Smyth in his researches on the ultra-violet rays of the solar spectrum. Brit. Ass. Rep., **1891**, 147–148; **1892**, 74–76.

—— [Reports] of a Committee appointed to investigate the direct formation of haloid compounds from pure materials. Brit. Ass. Rep., **1891**, 274–275; **1895**, 341; **1896**, 347; **1897**, 295–296.

— Report of the Committee to work the very fossiliferous transition bed between the Middle and Upper Lias in Northamptonshire, in order to obtain a more clear idea of its fauna, and to fix the position of certain species of fossil fish, and more fully investigate the horizon on which they occur. Brit. Ass. Rep., **1891**, 334–351.

— Report of the Committee to complete the investigation of the cave at Elbolton, near Skipton, in order to ascertain whether remains of palæolithic man occur in the lower cave earth. Brit. Ass. Rep., **1891**, 351–353.

—— Report of the Committee appointed to carry on excavations at Oldbury Hill, near Ightham, in order to ascertain the existence or otherwise of rock-shelters at this spot. Brit. Ass. Rep., **1891**, 353–354.

—— [Report] of the Committee appointed to report on the present state of our knowledge of the zoology of the Sandwich Islands, and to take steps to investigate ascertained deficiencies in the fauna. Brit. Ass. Rep., **1891**, 357–358.

—— [Reports] of the Committee for the purpose of carrying on the work of the Anthropometric Laboratory. Brit. Ass. Rep., **1891**, 405–407; **1892**, 618–624; **1893**, 654–662; **1894**, 444–453.

—— Report of the Committee on electro-optics. Brit. Ass. Rep., **1892**, 157–158.

—— Sixth report of the Committee for taking steps to establish a botanical laboratory at Peradeniya, Ceylon. Brit. Ass. Rep., **1892**, 363–365.

—— Tables connected with the Pellian equation from the point where the work was left by Degan in 1817. Report. Brit. Ass. Rep., **1893**, 73–120.

—— Magnetic work at the Falmouth Observatory. Report. Brit. Ass. Rep., **1893**, 121–126.

—— Earth tremors. [Reports.] Brit. Ass. Rep., **1893**, 287–334; **1894**, 145–160; **1895**, 184–185.

—— The action of light upon dyed colours. [Reports.] Brit. Ass. Rep., **1893**, 373–381; **1894**, 238–246; **1895**, 263–272; **1896**, 347–356; **1897**, 286; **1898**, 285–293; **1899**, 363–370.

—— The Eurypterid-bearing deposits of the Pentland Hills. [Reports.] Brit. Ass. Rep., **1893**, 470; **1894**, 302–303; **1898**, 557–558.

—— The character of the high-level shell-bearing deposits at Clava, Chapelhall, and other localities. [Reports.] Brit. Ass. Rep., **1893**, 483–514; **1894**, 307–315.

—— The marine zoology, [botany and geology] of the Irish Sea. [Reports.] Brit. Ass. Rep., **1893**, 526–536; **1894**, 318–334; **1895**, 455–467; **1896**, 417–450.

—— Investigations made at the Laboratory of the Marine Biological Association at Plymouth. [Reports.] Brit. Ass. Rep., **1893**, 546–551; **1894**, 345–346; **1895**, 469–472; **1896**, 485–486; **1898**, 583–586; **1899**, 437–440; **1900**, 399–400.

—— The physiological action of the inhalation of oxygen in asphyxia, more especially in coal mines. Report. Brit. Ass. Rep., **1893**, 551–552.

—— Scottish place-names. Report. Brit. Ass. Rep., **1893**, 554–556.

— Exploration of ancient remains in Abyssinia. Report. Brit. Ass. Rep., **1893**, 557–564.

—— The exploration of the glacial region of the Karakoram Mountains. Report. Brit. Ass. Rep., **1893**, 564–566.

—— On the physical [and mental] deviations from the normal among children in elementary and other schools. [Reports.] Brit. Ass. Rep., **1893**, 614–620; **1894**, 434–438; **1895**, 503–508; **1896**, 592–606; **1897**, 427–439; **1898**, 691–693; **1899**, 489–493; **1900**, 461–466.

—— Ethnographical Survey of the United Kingdom. [Reports.] Brit. Ass. Rep., **1893**, 621–653; **1894**, 419–431; **1895**, 509–518; **1896**, 607–656; **1897**, 452–511; **1898**, 712–714; **1899**, 493–495.

—— Uniformity in the spelling of barbaric and savage languages and race names. Report. Brit. Ass. Rep., **1893**, 662–665.

—— The electrolytic methods of quantitative analysis. [Reports.] Brit. Ass. Rep., **1894**, 160; **1895**, 235–262; **1896**, 244–262; **1897**, 295; **1898**, 294–311; **1900**, 171–187.

—— Proximate chemical constituents of coal. Report. Brit. Ass. Rep., **1894**, 246–247; **1896**, 340–346.

—— Exploration of the Calf Hole cave at the Heights, Skyrethorns, near Skipton. Report. Brit. Ass. Rep., **1894**, 272–273.

—— [Reports] of the Committee appointed to open further sections in the neighbourhood of Stonesfield in order to show the relationship of the Stonesfield slate to the underlying and overlying strata. Brit. Ass. Rep., **1894**, 304–306; **1895**, 414–415; **1896**, 356.
—— The climatological and hydrographical conditions of tropical Africa. [Reports.] Brit. Ass. Rep., **1894**, 348–353; **1895**, 480–491; **1896**, 495–502; **1897**, 409–417; **1898**, 603–610; **1899**, 448–459; **1900**, 413–420.
—— The exploration of Hadramout in Southern Arabia. Report. Brit. Ass. Rep., **1894**, 354–358.
—— Methods of determining the dryness of steam. Report. Brit. Ass. Rep., **1894**, 392–418.
—— Anthropometric work in schools. Report. Brit. Ass. Rep., **1894**, 439–443.
—— The structure and function of the mammalian heart. Report. Brit. Ass. Rep., **1894**, 464–465.
—— Report of the Committee appointed to confer with the Astronomer Royal and the superintendents of other observatories with reference to the comparison of magnetic standards with a view of carrying out such comparison. Brit. Ass. Rep., **1895**, 79–80; **1896**, 87–97.
—— High-level flint-drift of the Chalk. Report. Brit. Ass. Rep., **1895**, 349–351.
—— Report of the Committee appointed to examine the ground from which the remains of the Cetiosaurus in the Oxford Museum were obtained, with a view to determining whether other parts of the same animal remain in the rock. Brit. Ass. Rep., **1895**, 403–404.
—— The exploration of Southern Arabia. Report. Brit. Ass. Rep., **1895**, 491–496.
—— Calibration of instruments used in engineering laboratories. [Reports.] Brit. Ass. Rep., **1895**, 497–500; **1896**, 538–548; **1897**, 424–426.
—— An ancient kitchen midden at Hastings, and a barrow at the Wilderness. Report. Brit. Ass. Rep., **1895**, 500–502.
—— Calculation of the $G(r, v)$-integrals. [Reports.] Brit. Ass. Rep., **1896**, 70–82; **1899**, 65–120.
—— On the establishment of a National Physical Laboratory. Report. Brit. Ass. Rep., **1896**, 82–86.
—— Seismological investigations. [Reports.] Brit. Ass. Rep., **1896**, 180–230; **1897**, 129–206; **1898**, 179–276; **1899**, 161–238; **1900**, 59–120.
—— [Reports of the Committee on the present state of our knowledge in electrolysis and electro-chemistry.] Brit. Ass. Rep., **1896**, 230–231; **1897**, 227–245; **1898**, 158; **1899**, 160; **1900**, 34–35.
—— The carbohydrates of cereal straws. [Reports.] Brit. Ass. Rep., **1896**, 262–265; **1897**, 294; **1898**, 293–294.
—— Erratic blocks of the British Isles. [Reports.] Brit. Ass. Rep., **1896**, 366–377; **1897**, 349–352; **1898**, 552–556; **1899**, 398–402; **1900**, 343–346.
—— The character of the high-level shell-bearing deposits in Kintyre. Report of the Committee, with special reports on the organic remains. Brit. Ass. Rep., **1896**, 378–399.
—— Report of the Committee appointed to ascertain by excavation at Hoxne the relations of the Palæolithic deposits to the Boulder Clay, and to the deposits with Arctic and temperate plants. Brit. Ass. Rep., **1896**, 400–415.
—— [Reports] of the Committee appointed to study the life-zones in the British Carboniferous rocks. Brit. Ass. Rep., **1896**, 415–416; **1897**, 296–297; **1899**, 371–375; **1900**, 340–342.
—— African lake fauna. [Reports.] Brit. Ass. Rep., **1896**, 484; **1897**, 368–369.
—— The necessity for the immediate investigation of the biology of oceanic islands. Report. Brit. Ass. Rep., **1896**, 487–489.
—— The effect of wind and atmospheric pressure on the tides. Report. Brit. Ass. Rep., **1896**, 503–526.
—— [Reports] of the Committee appointed to consider means by which practical effect can be given to the introduction of the screw gauge proposed by the Association in 1884. Brit. Ass. Rep., **1896**, 527–537; **1899**, 464–469; **1900**, 436–448.
—— The ethnographical survey of Ireland. [Reports.] Brit. Ass. Rep., **1896**, 609–610; **1897**, 510–511.
—— Linguistic and anthropological characteristics of the North Dravidian and Kolarian races. The Urânws. Report. Brit. Ass. Rep., **1896**, 659–663.
—— [Reports] of the Committee appointed to report on the elucidation of the life conditions of the oyster under normal and abnormal environment, including in the latter the effect of sewage matter and pathogenic organisms. Brit. Ass. Rep., **1896**, 663–669; **1897**, 363–367; **1898**, 559–569.
—— [Reports] by the Committee on the physiological applications of the phonograph, and on the form of the voice-curves made by the instrument. Brit. Ass. Rep., **1896**, 669–673; **1897**, 526–530.
—— [Reports] of the Committee appointed to report on the best methods of preserving vegetable specimens for exhibition in museums. Brit. Ass. Rep., **1896**, 684–696; **1897**, 537–538.
—— Report of the Committee appointed to ascertain the age and relation of the rocks in which secondary fossils have been found near Moreseat, Aberdeenshire. Brit. Ass. Rep., **1897**, 333–342.
—— [Reports] of the Committee appointed to examine the conditions under which remains of the Irish elk are found in the Isle of Man. Brit. Ass. Rep., **1897**, 346–348; **1898**, 548–551; **1899**, 376; **1900**, 349–350.
—— An ethnological survey of Canada. [Reports.] Brit. Ass. Rep., **1897**, 440–451; **1899**, 497–584; **1900**, 468–568.
—— [Reports] of the Committee appointed to investigate the changes which are associated with the functional activity of nerve cells and their peripheral extensions. Brit. Ass. Rep., **1897**, 512–526; **1898**, 714–720.
—— The physiological effects of peptone and its precursors when introduced into the circulation. [Reports.] Brit. Ass. Rep., **1897**, 531–537; **1898**, 720–729; **1899**, 605–608; **1900**, 457–458.
—— [Reports] of the Committee for the establishment of a meteorological observatory on the top of Mount Royal, Montreal. Brit. Ass. Rep., **1898**, 79; **1900**, 33–34.
—— [Reports] of the Committee appointed to further investigate the flora and fauna of the Pleistocene beds in Canada. Brit. Ass. Rep., **1898**, 522–529; **1899**, 411–414; **1900**, 328–339.
—— Photographs of geological interest in Canada. Report. Brit. Ass. Rep., **1898**, 546–547.
—— Report of the Committee appointed to explore certain caves in the Malay Peninsula, and to collect their living and extinct fauna. Brit. Ass. Rep., **1898**, 571–582.
—— Fertilisation in Phæophyceæ. Report. Brit. Ass. Rep., **1898**, 729–730.
—— Radiation from a source of light in a magnetic field. Report. Brit. Ass. Rep., **1899**, 63–64.
—— Heat of combination of metals in the formation of alloys. Report. Brit. Ass. Rep., **1899**, 246–249.
—— Report of the Committee appointed to establish a uniform system of recording the results of the chemical and bacterial examination of water and sewage. Brit. Ass. Rep., **1899**, 255–256.
—— [Reports] of the Committee appointed to investigate the relation between the absorption spectra and chemical constitution of organic substances. Brit. Ass. Rep., **1899**, 316–358; **1900**, 151–167.
—— Report of a Committee appointed to investigate the Ty Newydd caves, Tremeirchion, North Wales. Brit. Ass. Rep., **1899**, 406–411.

—— Report of the Committee appointed to make photographic and other records of the disappearing drift section at Moel Tryfaen. Brit. Ass. Rep., **1899**, 414–423.

—— Pedigree stock records. Report. Brit. Ass. Rep., **1899**, 424–429.

—— Report of the Committee appointed to make periodic investigations of the plankton and physical conditions of the English Channel during 1899. Brit. Ass. Rep., **1899**, 444–446.

—— Report of the Committee appointed to explore the island of Sokotra. Brit. Ass. Rep., **1899**, 460–464.

—— Electrical changes accompanying the discharge of the respiratory centre. Report. Brit. Ass. Rep., **1899**, 599–603.

—— The comparative histology of the cerebral cortex. [Reports.] Brit. Ass. Rep., **1899**, 603–604; **1900**, 453–454.

—— The influence of drugs upon the vascular nervous system. Report. Brit. Ass. Rep., **1899**, 608.

—— The micro-chemistry of cells. Report. Brit. Ass. Rep., **1899**, 609–610; **1900**, 449–452.

—— Isomorphous derivatives of benzene. Report. Brit. Ass. Rep., **1900**, 167–170.

—— The movements of underground waters of Craven. Report. Brit. Ass. Rep., **1900**, 346–349.

—— Report of the Committee appointed to investigate the structure, formation, and growth of the coral reefs of the Indian region. Brit. Ass. Rep., **1900**, 400–402.

—— Electrical changes in mammalian nerve. Report. Brit. Ass. Rep., **1900**, 455–457.

—— Report of the Committee on the effect of chorda stimulation on the volume of the submaxillary gland. Brit. Ass. Rep., **1900**, 458–461.

British Astronomical Association. [Reports of the] Section for the observation of the moon. [1892–99.] Brit. Astr. Ass. Mem., 1, [**1893**], 1–16; 2, **1895**, 29–52; 3, **1895**, 151–191; 7, **1899**, 47–70.

—— [Reports of the] Section for the observation of meteors. [1892–1900.] Brit. Astr. Ass. Mem., 1, [**1893**], 17–31; 3, **1895**, 1–28; 4, **1896**, 1–20; 5, **1897**, 1–18; 6, **1898**, 37–54; 7, **1899**, 1–16; 8, **1900**, 1–21; 9, **1901**, 1–26.

—— [Reports of the] Section for the observation of the colours of stars. [1892–1900.] Brit. Astr. Ass. Mem., 1, [**1893**], 33–52; 2, **1895**, 109–128; 9, **1901**, 27–62.

—— [Reports of the] Section for the observation of variable stars. Brit. Astr. Ass. Mem., 1, [**1893**], 53–72; 3, **1895**, 29–48; 5, **1897**, 19–50.

—— [Reports of the] Section for the observation of Jupiter. Brit. Astr. Ass. Mem., 1, [**1893**], 73–98; 2, **1895**, 129–156; 3, **1895**, 121–150; 4, **1896**, 21–41; 5, **1897**, 51–82; 6, **1898**, 103–142; 7, **1899**, 71–108; 8, **1900**, 67–90.

—— [Reports of the] Section for the observation of the Sun. Brit. Astr. Ass. Mem., 1, [**1893**], 99–138; 2, **1895**, 53–108; 3, **1895**, 49–120; 4, **1896**, 43–106; 5, **1897**, 83–122; 6, **1898**, 143–174; 7, **1899**, 17–46; 8, **1900**, 23–52.

— [Reports of the] Section for the observation of Saturn. [1893–1901.] Brit. Astr. Ass. Mem., 2, **1895**, 1–28; 9, **1901**, 107–113.

—— [Reports of the] Section for the observation of Mars. Brit. Astr. Ass. Mem., 2, **1895**, 157–198; 4, **1896**, 107–137; 6, **1898**, 55–102; 9, **1901**, 63–106.

—— [Report of the] expedition for the observation of the total solar eclipse, August 9th, 1896. [1896.] Brit. Astr. Ass. Mem., 6, **1898**, 1–36.

—— [Report of the] Section for astronomical photography. Brit. Astr. Ass. Mem., 8, **1900**, 53–66.

—— *Nouvelles recherches sur l'apparition de contracture

après la mort. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 25–28.

—— *Recherches ayant pour objet d'établir que les lésions encéphaliques unilatérales si elles déterminent une hémiplégie complète ou considérable, produisent aussi de la parésie dans les autres membres, surtout dans l'inférieur. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 28–30.

—— *Régénération du nerf sciatique dans une longueur de douze centimètres, dans l'espace de dix semaines chez un petit singe. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 30–31.

—— *Persistance de l'état normal de la nutrition dans un membre de singe paralysé par suite de l'ablation du nerf sciatique dans toute sa longueur. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 31–32.

—— *Faits montrant que les mouvements produits par l'irritation des diverses parties de l'encéphale sont très différents de ceux qui devraient survenir d'après les doctrines admises à l'égard des appareils moteur et sensitif du système cérébro-spinal. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 246–251.

—— *Recherches relatives à la production de mouvements dans les membres, sous l'influence d'irritations de diverses parties de l'encéphale. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 279–283.

—— *Faits montrant combien sont variées et nombreuses les voies de communication entre les zones motrices de la surface cérébrale et les membres. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 328–332.

—— *Nouvelles recherches sur la production d'une anesthésie complète au larynx. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 649–650.

—— *Production d'anesthésie générale sous l'influence de l'irritation de la muqueuse laryngée par de l'acide carbonique ou du chloroforme. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 799–804.

—— *Production d'anesthésie surtout dans une des moitiés du corps par une irritation du larynx, après la section d'un des nerfs laryngés supérieurs. Paris, Soc. Biol. Mém., 34, 1882 (*C. R.*), 816–819.

—— *Sur la possibilité de produire par une irritation périphérique, soit une paralysie générale sans anesthésie, soit de l'anesthésie sans paralysie, suivant le lieu de l'irritation. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 27–30.

—— *Sur l'inhibition soudaine des activités et des fonctions de l'encéphale, avec arrêt des échanges entre les tissus et le sang, sous l'influence d'une piqûre du bulbe rachidien. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 87–91.

—— *Sur l'apparition d'un état cataleptiforme après la mort. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 191–193.

—— *Sur l'apparition, après la mort, d'un état cataleptiforme dû à certaines lésions du centre cérébro-spinal, chez les oiseaux. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 206–210.

—— *Sur l'importance de l'emploi simultané de la morphine et de l'atropine dans la plupart des cas où l'on doit faire usage de l'une de ces substances. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 289–290.

—— *Recherches expérimentales et cliniques sur le mode de production de l'anesthésie dans les affections organiques de l'encéphale. [1883.] Paris, Soc. Biol. Mém., 35, 1884 (*C. R.*), 417–421, 454–456.

— Persistance de la parole, dans le chant, dans les rêves et dans le délire, chez des aphasiques. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 256–257.

— Existence de l'excitabilité motrice et de l'excitabilité inhibitoire dans les régions occipitales et sphénoïdales de l'écorce cérébrale. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 301–303.

—— Faits montrant que toutes ou presque toutes les parties de l'encéphale, chez l'homme, peuvent déterminer certaines inhibitions. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 320–324.

—— Inhibition de certaines puissances réflexes du bulbe rachidien et de la moelle épinière, sous l'influence d'irritations de diverses parties de l'encéphale. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 350–352.

—— Du rôle de certaines influences dynamogéniques réflexes dans des cas de suture de nerfs récemment publiés. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 423–425.

— De la puissance inhibitrice et de la puissance convulsivante de l'acide carbonique. Paris, Soc. Biol. Mém., 36, 1884 (*C. R.*), 556–559.

—— Sur une espèce d'anesthésie artificielle, sans sommeil et avec conservation parfaite de l'intelligence, des mouvements volontaires, des sens et de la sensibilité tactile. Paris, Ac. Sci. C. R., 100, 1885, 1366–1369.

—— Recherches expérimentales paraissant montrer que les muscles atteints de rigidité cadavérique restent doués de vitalité jusqu'à l'apparition de la putréfaction. Paris, Ac. Sci. C. R., 101, 1885, 926–929.

—— Causes des altérations de nutrition qui suivent la section du nerf sciatique et du nerf crural, chez les cobayes. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 146–147.

—— Production d'épilepsie spinale par une lésion du cervelet. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 149–151.

—— Inhibition de la sensibilité à la douleur dans le corps tout entier sous l'influence de l'irritation de la muqueuse laryngée par la cocaïne. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 167–170.

—— Du rôle de l'arrêt des échanges entre le sang et les tissus, de la contracture et de l'inhibition à l'égard du degré d'énergie et de la durée des propriétés des nerfs et des muscles après la mort. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 185–189.

—— Recherches sur l'augmentation de la tonicité musculaire et sur l'inhibition de la propriété essentielle des tissus contractiles. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 206–208.

—— Étude des effets produits par les irritations cutanées pour servir à l'explication des influences thérapeutiques exercées par les contre-irritants. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 209–210.

—— Du transfert de l'anesthésie, de l'hyperesthésie, de la paralysie, de la contracture, de l'hypothermie et de l'hyperthermie, causées par les lésions organiques. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 246–249.

—— Nouveaux faits relatifs à la rigidité cadavérique. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 249–250.

—— Remarques sur l'altération de sensibilité, connue sous le nom d'allochirie. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 268–270.

—— Production de globules semblables à ceux du sang des Mammifères, dans diverses parties du corps d'animaux de cette classe, lorsqu'on y injecte du sang d'oiseau, même longtemps après la mort. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 287–291, 307–310, 329–333.

—— Indication d'un mode nouveau de production de l'emphysème pulmonaire. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 354–356.

—— Sur la puissance de formation de globules sanguins, dans le système vasculaire des Mammifères, après la mort. Paris, Soc. Biol. Mém., 37, 1885 (*C. R.*), 393–395.

—— Recherches expérimentales montrant que la rigidité cadavérique n'est due ni entièrement, ni même en grande partie, à la coagulation des substances albumineuses des muscles. Paris, Ac. Sci. C. R., 103, 1886, 622–627.

—— Recherches expérimentales paraissant démontrer que la rigidité cadavérique dépend d'une contracture, c'est à dire d'un acte de vie des muscles, commençant ou se

continuant après la mort générale. Paris, Ac. Sci. C. R., 103, **1886**, 674–678.

—— Recherches expérimentales montrant combien sont variés et nombreux les effets purement dynamiques provenant d'influences exercées sur l'encéphale par les nerfs sensitifs et sur les nerfs moteurs par les centres nerveux. Paris, Ac. Sci. C. R., 103, **1886**, 790–795, 1048.

—— Faits relatifs aux voies de communication entre le cerveau et les muscles. Paris, Soc. Biol. Mém., 38, **1886** (*C. R.*), 75–76.

—— Prolongation exceptionnelle de certains actes réflexes de la moelle épinière, après la mort. Paris, Soc. Biol. Mém., 38, **1886** (*C. R.*), 101.

—— Nouveaux faits relatifs à l'anesthésie liée aux lésions organiques de la moelle épinière. Paris, Soc. Biol. Mém., 38, **1886** (*C. R.*), 386–388.

—— Sur divers effets d'irritation de la partie antérieure du cou et, en particulier, la perte de la sensibilité et la mort subite. Paris, Ac. Sci. C. R., 104, **1887**, 951–954.

—— Recherches sur des mouvements de contraction et de relâchement, en apparence spontanés, qui se produisent dans les muscles, après la mort, tant que dure la rigidité cadavérique. Paris, Ac. Sci. C. R., 105, **1887**, 556–565.

—— Dualité du cerveau et de la moelle épinière, d'après des faits montrant que l'anesthésie, l'hyperesthésie, la paralysie et des états variés d'hypothermie et d'hyperthermie, dus à des lésions organiques du centre cérébro-spinal, peuvent être transférés d'un côté à l'autre du corps. Paris, Ac. Sci. C. R., 105, **1887**, 646–652.

—— Recherches sur les deux principaux fondements des doctrines reçues à l'égard de la dualité cérébrale dans les mouvements volontaires. Paris, Ac. Sci. C. R., 105, **1887**, 840–845.

—— Sur l'existence dans chacun des hémisphères cérébraux de deux séries de fibres capables d'agir sur les deux moitiés du corps, soit pour y produire des mouvements, soit pour déterminer des phénomènes inhibitoires. Paris, Soc. Biol. Mém., 39, **1887** (*C. R.*), 261–264.

—— Faits montrant que c'est parce que le bulbe rachidien est le principal foyer d'inhibition de la respiration qu'il semble être le principal centre des mouvements respiratoires. Paris, Soc. Biol. Mém., 39, **1887** (*C. R.*), 293–296.

—— Influence de la position de la tête sur les propriétés des prétendus centres moteurs et sur les manifestations morbides de cerveaux lésés. Paris, Soc. Biol. Mém., 39, **1887** (*C. R.*), 607–610.

—— Recherches expérimentales montrant que, sous l'influence de la gravitation, les centres appelés moteurs et les autres parties d'une moitié de l'encéphale peuvent déterminer des mouvements dans chacune des moitiés du corps. Paris, Ac. Sci. C. R., 106, **1888**, 1577–1582.

—— Explication du retour, quelquefois si rapide, de la sensibilité et du mouvement volontaire, après la suture des bouts d'un nerf coupé. Paris, Soc. Biol. Mém., 40, **1888** (*C. R.*), 245–249.

—— Notions nouvelles de physiologie générale des centres nerveux, pour servir à la pathogénie de la paralysie et de l'anesthésie. Paris, Soc. Biol. Mém., 40, **1888** (*C. R.*), 276–279, 290–294.

—— Coexistence d'inexcitabilité de la zone excito-motrice du cerveau avec persistance des fonctions motrices de ce centre nerveux et aussi avec production d'attaques épileptiformes violentes. Paris, Soc. Biol. Mém., 40, **1888** (*C. R.*), 354–357.

—— Note sur des phénomènes importants observés chez un chien après la section d'une moitié latérale du bulbe rachidien. Paris, Soc. Biol. Mém., 40, **1888** (*C. R.*), 407–410.

—— Les nerfs moteurs perdent-ils leur excitabilité avant les muscles, lorsqu'ils sont privés de circulation sanguine? Paris, Soc. Biol. Mém., 40, **1888** (*C. R.*), 694–696.

—— Champ d'action de l'inhibition en physiologie, en pathogénie et en thérapeutique. Arch. de Physiol., 1, **1889**, 1–23.

—— Recherches cliniques et expérimentales sur les entrecroisements des conducteurs servant aux mouvements volontaires. Arch. de Physiol., 1, **1889**, 219–245.

—— Le sommeil normal, comme le sommeil hypnotique, est le résultat d'une inhibition de l'activité intellectuelle. Arch. de Physiol., 1, **1889**, 333–335.

—— De la cause du rythme respiratoire, d'après un fait découvert par *M.* Charles Rouget. Arch. de Physiol., 1, **1889**, 336–337.

—— Quelques mots sur la découverte de l'inhibition. Arch. de Physiol., 1, **1889**, 337–339.

—— Recherches sur la localisation des conducteurs des impressions sensitives dans les diverses parties de l'encéphale et sur la pathogénie des anesthésies de cause encéphalique. Arch. de Physiol., 1, **1889**, 484–498.

—— Expériences montrant combien est grande la dissémination des voies motrices dans le bulbe rachidien. Arch. de Physiol., 1, **1889**, 606–608.

—— Remarques sur l'association entre l'effort inspiratoire et l'inhibition du cœur. Arch. de Physiol., 1, **1889**, 610.

—— Expérience démontrant la puissance dynamogénique chez l'homme d'un liquide extrait de testicules d'animaux. Arch. de Physiol., 1, **1889**, 651–658.

—— Des contractions et des élongations en apparences spontanées des muscles atteints de la rigidité cadavérique. Arch. de Physiol., 1, **1889**, 675–682.

—— Sur des actions inconnues ou à peine connues des muscles après la mort. Arch. de Physiol., 1, **1889**, 726–732.

—— Du rôle physiologique et thérapeutique d'un suc extrait de testicules d'animaux d'après nombre de faits observés chez l'homme. Arch. de Physiol., 1, **1889**, 739–746.

—— De quelques règles générales relatives à l'inhibition. Arch. de Physiol., 1, **1889**, 751–761.

—— Des effets produits chez l'homme par des injections sous-cutanées d'un liquide retiré des testicules frais de cobaye et de chien. Paris, Soc. Biol. Mém., 41, **1889** (*C. R.*), 415–419, 420–422, 430–431.

—— Remarques à l'occasion du travail de *M.* Variot, sur les injections de liquide testiculaire chez l'homme. Paris, Soc. Biol. Mém., 41, **1889** (*C. R.*), 454–455.

—— Preuves de l'insignifiance d'une expérience célèbre de *MM.* Victor Horsley et Beevor sur les centres appelés moteurs. Arch. de Physiol., 2, **1890**, 199–201.

—— Nouveaux faits relatifs à l'injection sous-cutanée, chez l'homme, d'un liquide extrait de testicules de Mammifères. Arch. de Physiol., 2, **1890**, 201–208.

—— Recherches sur les mouvements rythmés des ailes et du thorax chez les oiseaux décapités ou ayant subi d'autres lésions des centres nerveux. Arch. de Physiol., 2, **1890**, 371–378, 867.

—— Théorie des mouvements involontaires coordonnés des membres et du tronc chez l'homme et les animaux. Arch. de Physiol., 2, **1890**, 411–424.

—— Exposé de faits nouveaux à l'égard de l'influence sur les centres nerveux d'un liquide extrait de testicules d'animaux. Arch. de Physiol., 2, **1890**, 443–455.

—— Remarques sur les effets produits sur la femme par des injections sous-cutanées d'un liquide retiré d'ovaires d'animaux. Arch. de Physiol., 2, **1890**, 456–457.

—— Recherches sur l'existence d'une période intermédiaire à l'irritabilité musculaire et à la rigidité cadavérique. Arch. de Physiol., 2, **1890**, 628–631.

—— Nouveaux faits relatifs à l'influence sur les centres nerveux de l'homme d'un liquide extrait de testicules d'animaux. Arch. de Physiol., 2, **1890**, 641–648.

—— Nombreux cas de vivisection pratiquée sur le cerveau de l'homme; leur verdict contre la doctrine des centres psycho-moteurs. Arch. de Physiol., 2, **1890**, 762–773.

—— Influence du système nerveux pour retarder la putréfaction. Paris, Soc. Biol. Mém., 12, **1890** (*C. R.*), 2-3.

— Nouvelles remarques sur le liquide testiculaire. Paris, Soc. Biol. Mém., 42, **1890** (*C. R.*), 717-718.

—— De la perte de connaissance dans l'épilepsie après l'ablation du ganglion cervical supérieur du nerf grand sympathique, des deux côtés, chez l'homme et chez le cobaye. Arch. de Physiol., 3, **1891**, 216-218.

—— Exposé de faits nouveaux montrant la puissance du liquide testiculaire contre l'affaiblissement dû à certaines maladies et en particulier la tuberculose pulmonaire. Arch. de Physiol., 3, **1891**, 224-229.

—— Remarques sur la spermine et le liquide testiculaire. Arch. de Physiol., 3, **1891**, 401-403.

—— Remarques sur les recherches, sur l'intensité et sur la persistance des impressions lumineuses brèves, de *M.* Aug. Charpentier. Arch. de Physiol., 3, **1891**, 604-605.

—— Recherches sur l'inhibition de la sensibilité aux causes de douleur sous l'influence d'une irritation de la muqueuse laryngée par de l'acide carbonique. Arch. de Physiol., 3, **1891**, 645-660.

—— Faits montrant combien est grande et variée l'influence du système nerveux sur la nutrition et les sécrétions. Influence curative du liquide testiculaire dans un grand nombre d'affections locales ou générales, organiques ou fonctionnelles. Arch. de Physiol., 3, **1891**, 747-761.

—— Recherches sur la production d'une analgésie générale par les irritations traumatiques ou mécaniques de la peau du cou, de la trachée ou du larynx, par la faradisation ou par l'application de chloroforme ou de cocaïne au larynx. Arch. de Physiol., 3, **1891**, 773-787.

—— Sur une inhibition dont les chirurgiens pourraient tirer profit si elle se produit chez l'homme comme chez le chien et le singe. Les plaies par incision ou par brûlure, après une irritation du larynx ou de ses nerfs sensitifs, peuvent conserver de l'analgésie pendant plusieurs jours et même deux semaines ou plus longtemps. Arch. de Physiol., 3, **1891**, 805-815.

—— Mort par arrêt des échanges entre le sang et les tissus sous l'influence d'une irritation de la muqueuse laryngée. Arch. de Physiol., 3, **1891**, 818-819.

—— Remarques à propos de l'emploi du liquide testiculaire. Paris, Soc. Biol. Mém., 43, **1891** (*C. R.*), 318.

—— A new genus of Pierinæ allied to Appias. [1887.] Ent. Month. Mag., 23, **1886–87**, 248–249.
— On the Mycalesis asochis of Hewitson, a butterfly of the sub-family Satyrinæ. [1887.] Ent. Month. Mag., 24, **1887–88**, 29.
—— On the true distinction between Lithosia complana and L. lurideola. [1887.] Ent. Month. Mag., 24, **1887–88**, 106–107.
—— Notes on certain North American species of the group called by *M.* Guénée "Acronycta." [1887.] Entomologica Amer., 3, **1887–88**, 35–36.
—— Lepidoptera. [Report on a zoological collection made by the officers of H.M.S. *Flying Fish*, at Christmas Island, Indian Ocean.] Zool. Soc. Proc., **1887**, 522–523.
—— On two small collections of African Lepidoptera recently received from Mr. H. H. Johnston. Zool. Soc. Proc., **1887**, 567–574.
—— Notes on the species of the lepidopterous genus Euchromia, with descriptions of new species in the collection of the British Museum. [1887.] Ent. Soc. Trans., **1888**, 109–115.
—— On three extremely interesting new moths of the family Chalcosiidæ from Kilima-njaro and Natal. Ann. Mag. Nat. Hist., 1, **1888**, 47–50.
—— An account of three series of Lepidoptera collected in North-West India by Major Yerbury. Ann. Mag. Nat. Hist., 1, **1888**, 132–151, 196–209.
—— On butterflies of the genus Teracolus obtained by Mr. H. G. Palliser at Khandesh in the winter of 1886–87. Ann. Mag. Nat. Hist., 1, **1888**, 417–419.
—— On the Lepidoptera received from Dr. Emin Pasha. Zool. Soc. Proc., **1888**, 56–85.
—— Descriptions of some new Lepidoptera from Kilima-njaro. Zool. Soc. Proc., **1888**, 91–98.
—— On the Lepidoptera of Christmas Island. Zool. Soc. Proc., **1888**, 542–546.
—— Description of a new species of the singular lepidopterous genus Mastigophorus. Ann. Mag. Nat. Hist., 3, **1889**, 358–360.
—— On a new chalcosiid moth obtained in Formosa by Mr. H. E. Hobson. Ann. Mag. Nat. Hist., 4, **1889**, 53.
—— A few remarks respecting insects supposed to be distasteful to birds. Ann. Mag. Nat. Hist., 4, **1889**, 171–173.
—— Notes made during the summer of 1887 on the effect of offering various insects, larvæ, and pupæ to birds. Ann. Mag. Nat. Hist., 4, **1889**, 463–473.
—— Synonymic notes on the moths of the earlier genera of Noctuites. Ent. Soc. Trans., **1889**, 375–387.
—— Descriptions of some new Lepidoptera-Heterocera in

the collection of the Hon. Walter de Rothschild. Ent. Soc. Trans., **1889**, 389–392.

—— Description of a new genus of fossil moths belonging to the geometrid family Euschemidæ. Zool. Soc. Proc., **1889**, 292–297.

—— Notes on the genus Dyschorista, *Led.*, a small group of moths allied to Orthosia. Ann. Mag. Nat. Hist., 6, **1890**, 96–97.

—— Notes made during the present year on the acceptance or rejection of insects by birds. Ann. Mag. Nat. Hist., 6, **1890**, 324–327.

—— Further notes on the synonymy of the genera of Noctuites. Ent. Soc. Trans., **1890**, 653–691.

—— List of Lepidoptera in a collection made by Emin Pasha in Central Africa. Ann. Mag. Nat. Hist., 7, **1891**, 40–51.

—— Description of a new genus for the reception of the North-American moths hitherto referred to Telesilla of Herrich-Schäffer. Ann. Mag. Nat. Hist., 7, **1891**, 461–462.

—— Revision of the noctuid moths in the Natural History Museum hitherto referred to Eriopus and Callopistria. Ann. Mag. Nat. Hist., 8, **1891**, 70–78.

—— Concerning Dr. Chapman's divisions of the genus Acronycta (*auct.*). Entomologist, 24, **1891**, 111–112.

—— On the so-called "Erastria" venustula of Europe. Entomologist, 24, **1891**, 113–114.

—— Notes on the synonymy of noctuid moths. Entomologist, 24, **1891**, 237–242, 263–266, 292–295; 25, **1892**, 10–14, 62–65, 90–93, 140–141, 188–191, 211–214, 283–286; 26, **1893**, 45–48, 121–125, 193–195, 244–246, 292–293, 352–355; 27, **1894**, 47–49, 192–193, 213–217, 240–241, 265–267; 28, **1895**, 120–125, 222–227, 275–276; 29, **1896**, 252–257, 279–284; 30, **1897**, 170–172.

—— The house martin as a cage bird. Zoologist, 15, **1891**, 397–398.

—— On the genus Hypocala, a group of noctuid moths. Ann. Mag. Nat. Hist., 10, **1892**, 17–22.

—— Description of a new genus and species of African moths. Ann. Mag. Nat. Hist., 10, **1892**, 295–297.

—— On the noctuid genera allied to Hypætra of Guénée. Ann. Mag. Nat. Hist., 10, **1892**, 297–300.

—— Revision of the noctuid genus Melipotis, *Hübn.*, with descriptions of two new species. Ann. Mag. Nat. Hist., 10, **1892**, 315–327.

—— Description of a new moth of the genus Anaphe from Madagascar, with a note on the natural position of the genus. Ann. Mag. Nat. Hist., 10, **1892**, 398–399.

—— On a collection of Lepidoptera from Sandakan, N. E. Borneo. Zool. Soc. Proc., **1892**, 120–133.

—— Notes on the genus Acronycta of authors and its position in the classification of heterocerous Lepidoptera. Ann. Mag. Nat. Hist., 11, **1893**, 396–402.

—— Notes on the genus Entomogramma as represented by the noctuid moths of that group in the collection of the British Museum. Ann. Mag. Nat. Hist., 12, **1893**, 43–46.

—— On a small collection of Lepidoptera from Darwin Harbour, Falkland Islands. Ann. Mag. Nat. Hist., 12, **1893**, 207–210.

—— Description of a new species of the butterfly genus Charaxes. Ann. Mag. Nat. Hist., 12, **1893**, 266.

—— On a small collection of Lepidoptera from Chili. Ann. Mag. Nat. Hist., 12, **1893**, 457–467.

—— On certain species of North American Hypenidæ. Entomologist, 26, **1893**, 311–312.

—— On two collections of Lepidoptera sent by H. H. Johnston, Esq., C.B., from British Central Africa. Zool. Soc. Proc., **1893**, 643–684.

—— Abnormal variability in the antennal characters of Cosmophila erosa, *Hübn.* Ann. Mag. Nat. Hist., 14, **1894**, 298–300.

—— On the lepidopterous genus Hexeris of Grote. Entomologist, 27, **1894**, 267.

—— The North American Noctuidæ of the genus Ingura. Entomologist, 27, **1894**, 282–284.

—— Note on Eumestleta, *Butl.*, etc.; a group of Noctuæ of the eublemmine type. Entomologist, 27, **1894**, 314–315.

—— On a collection of Lepidoptera from British East Africa, made by Dr. J. W. Gregory between the months of March and August 1893. Zool. Soc. Proc., **1894**, 557–593.

—— Adris sikhimensis, a new form of the ophiderid group of noctuid moths. Ann. Mag. Nat. Hist., 15, **1895**, 126.

—— On Charaxes azota of Hewitson, a rare butterfly of which the type specimen is not in Hewitson's collection. Ann. Mag. Nat. Hist., 15, **1895**, 248–249.

—— Description of a new species of butterfly of the genus Amauris, obtained by Mr. Scott Elliot in East Central Africa. Ann. Mag. Nat. Hist., 16, **1895**, 122–123.

— Descriptions of new species of Planema in the collection of the British Museum. Ann. Mag. Nat. Hist., 16, **1895**, 415–417.

—— Notes on seasonal dimorphism in certain African butterflies. Ent. Soc. Trans., **1895**, 519–522.

— On collections of Lepidoptera from British Central Africa and Lake Tanganyika. Zool. Soc. Proc., **1895**, 250–270.

—— On a small collection of butterflies sent by Mr. Richard Crawshay from the country west of Lake Nyasa. Zool. Soc. Proc., **1895**, 627–634.

—— On a small collection of butterflies made by Consul Alfred Sharpe at Zomba, British Central Africa. Zool. Soc. Proc., **1895**, 720–721.

—— On Lepidoptera recently collected in British East Africa by Mr. G. F. Scott Elliot. Zool. Soc. Proc., **1895**, 722–742.

—— An account of the butterflies of the genus Charaxes in the collection of the British Museum. [1895.] Linn. Soc. Jl. (*Zool.*), 25, **1896**, 348–404, viii.

—— Descriptions of new species of butterflies of the genus Catasticta in the British Museum. Ann. Mag. Nat. Hist., 17, **1896**, 53–55.

—— Note on the synonymy of Huphina lanassa, a common Australian butterfly of the subfamily Pierinæ. Ann. Mag. Nat. Hist., 17, **1896**, 231–233.

—— Notes on the pierine butterflies of the genus Daptonura, with descriptions of new species. Ann. Mag. Nat. Hist., 17, **1896**, 347–350.

—— On some new pierine butterflies from Colombia. Ann. Mag. Nat. Hist., 18, **1896**, 42–44.

—— On a small collection of Lepidoptera sent from Nyasa in 1895 by Mr. R. Crawshay. Ann. Mag. Nat. Hist., 18, **1896**, 67–75.

—— Descriptions of some new Lepidoptera from Nyasa-Land. Ann. Mag. Nat. Hist., 18, **1896**, 159–163.

—— A new butterfly of the genus Acræa from Tugela, S. Africa. Ann. Mag. Nat. Hist., 18, **1896**, 467.

—— Descriptions of previously undescribed species of Dismorphina in the Natural History Museum. Entomologist, 29, **1896**, 26–27.

—— On a collection of butterflies obtained by Mr. Richard Crawshay in Nyasa-Land, between the months of January and April 1895. Zool. Soc. Proc., **1896**, 108–136.

—— On the butterflies obtained in Arabia and Somaliland by Capt. Chas. G. Nurse and Col. J. W. Yerbury in 1894 and 1895. Zool. Soc. Proc., **1896**, 242–257.

—— On two collections of Lepidoptera made by Mr. R. Crawshay in Nyasa-Land. Zool. Soc. Proc., **1896**, 817–850.

—— On a collection of Lepidoptera from Nyasa-Land presented to the Museum by Sir Harry Johnston, K.C.B., and collected by Mr. J. B. Yule. Zool. Soc. Proc., **1896**, 851–855.

—— On a new nymphalid butterfly from N. E. Borneo. Ann. Mag. Nat. Hist., 19, **1897**, 469–470.

—— On a new African pierine butterfly of the genus Mylothris. Ann. Mag. Nat. Hist., 19, **1897**, 627.
—— Revision of the pierine butterflies of the genus Delias. Ann. Mag. Nat. Hist., 20, **1897**, 143–167.
—— Descriptions of six pierine butterflies of the genus Catasticta in the collection of the British Museum. Ann. Mag. Nat. Hist., 20, **1897**, 366–369.
—— A revision of the species of butterflies belonging to the genus Teracolus, *Swains.* Ann. Mag. Nat. Hist., 20, **1897**, 385–399, 451–473, 495–507.
—— Seasonal dimorphism in African butterflies. Ent. Soc. Trans., **1897**, 105–111.
—— On changes of plumage in some of the typical weaver-birds. Ibis, 3, **1897**, 359–361.
—— Foreign finches in confinement, with hints as to the difficulties arising from the association of various species in the same aviary. Zoologist, 1, **1897**, 251–253.
—— On a collection of Lepidoptera obtained in the Arusa Galla Country in 1894 by Mr. F. Gillett. Zool. Soc. Proc., **1897**, 692–695.
—— On three consignments of butterflies collected in Natal in 1896 and 1897 by Mr. Guy A. K. Marshall, F.Z.S. Zool. Soc. Proc., **1897**, 835–857.
—— On a small collection of Lepidoptera made by Mr. F. Gillett in Somali-Land. Zool. Soc. Proc., **1897**, 923–925.
—— A revision of the pierine butterflies of the genus Terias from the Old World. Ann. Mag. Nat. Hist., 1, **1898**, 56–82, 181.
—— A revision of the butterflies of the genus Ixias. Ann. Mag. Nat. Hist., 1, **1898**, 133–143.
—— A review of the species of the genus Hebomoia, a group of pierine butterflies. Ann. Mag. Nat. Hist., 1, **1898**, 289–293.
—— Descriptions of some new species of butterflies of the subfamily Pierinæ. Ann. Mag. Nat. Hist., 1, **1898**, 294–295.
—— On the butterflies of the genera Leptophobia and Pieris. Ann. Mag. Nat. Hist., 2, **1898**, 13–24.
—— On the pierine butterflies of the genus Catophaga. Ann. Mag. Nat. Hist., 2, **1898**, 392–401, 458–467.
—— On some new species of African Pierinæ in the collection of the British Museum, with notes on seasonal forms of Belenois. Ent. Soc. Trans., **1898**, 431–444.
—— On sexual differences in the feathering of the wing of the skylark (Alauda arvensis). Zoologist, 2, **1898**, 104–105.
—— On a collection of Lepidoptera made by Mr. F. V. Kirby, chiefly in Portuguese East Africa. Zool. Soc. Proc., **1898**, 49–58.
—— On the lepidopterous insects collected by Mr. G. A. K. Marshall in Natal and Mashonaland in 1895 and 1897. Zool. Soc. Proc., **1898**, 186–201.
—— On a collection of Lepidoptera made in British East Africa by Mr. C. S. Betton. Zool. Soc. Proc., **1898**, 395–444.
—— A list of butterflies obtained in the Harar highlands by Capt. H. G. C. Swayne, R.E. Zool. Soc. Proc., **1898**, 821–822.
—— On a small collection of butterflies made in the Chikala district, British Central Africa, by Mr. George Hoare. Zool. Soc. Proc., **1898**, 823–824.
—— On a small collection of butterflies from British East Africa, obtained at the end of 1897 and beginning of 1898 by Mr. R. Crawshay. Zool. Soc. Proc., **1898**, 825–827.
—— On a collection of butterflies almost entirely made at Salisbury, Mashunaland, by Mr. Guy A. K. Marshall in 1898. Zool. Soc. Proc., **1898**, 902–912.
—— A revision of the pierine genus Huphina, with notes on the seasonal phases and descriptions of new species. Ann. Mag. Nat. Hist., 3, **1899**, 201–214.
—— A revision of the Dismorphina of the New World, with descriptions of new species. Ann. Mag. Nat. Hist., 3, **1899**, 373–393.
—— Descriptions of new species of the genus Lycænesthes. Ann. Mag. Nat. Hist., 4, **1899**, 341–344.
—— On butterflies collected between Chinde and Mandala, British Central Africa, by Edward M. de Jersey, Esq., in March and April, 1899. Ann. Mag. Nat. Hist., 4, **1899**, 372–378.
—— Notes on the American forms of Euchloë, *Hübn.* Canad. Ent., 31, **1899**, 19.
—— Chrysophanus thoe of Gray, why is it not C. hyllus, *Cramer?* Canad. Ent., 31, **1899**, 122.
—— Notes on the genus Euchloë, *Hübner*, a genus of the Pierinæ. Entomologist, 32, **1899**, 1–3.
—— The genus Cigaritis and its application. Entomologist, 32, **1899**, 77–78.
—— The genus Leuceronia of Aurivillius. Entomologist, 32, **1899**, 159–160.
—— The type of the genus Hypolycæna. Entomologist, 32, **1899**, 221.
—— The lycænid genus Azanus of Moore. Entomologist, 32, **1899**, 291–293.
—— [Contributions to the natural history of Lake Urmi, N. W. Persia, and its neighbourhood.] Insecta (Lepidoptera Rhopalocera). [1899.] Linn. Soc. Jl. (*Zool.*), 27, **1899–1900**, 408–411.
—— On two small collections of butterflies made by Mr. Richard Crawshay during 1898 in British East Africa. Zool. Soc. Proc., **1899**, 417–427.
—— On a small collection of butterflies sent by Lieut.-Col. A. S. G. Jayakar, A.M.S., from Muscat. Zool. Soc. Proc., **1899**, 810–812.
—— On a collection of butterflies made by Mr. Richard Crawshay in British East Africa. Zool. Soc. Proc., **1899**, 962–975.
—— On a small collection of butterflies from the Nandi district, Uganda Protectorate, eastern side of Lake Victoria; made by Captain Hobart, of the Grenadier Guards. Zool. Soc. Proc., **1899**, 976–978.
—— On a second collection of butterflies obtained by Mr. Edward M. de Jersey in Nyasaland. Ann. Mag. Nat. Hist., 5, **1900**, 59–63.
—— A list of the species of Cyaniris, a well-known group of the family Lycænidæ. Ann. Mag. Nat. Hist., 5, **1900**, 441–451.
—— List of the butterflies collected by Capt. Wingate at Hunan. Ann. Mag. Nat. Hist., 6, **1900**, 382.
—— Note on Cyaniris pseudargiolus of Boisduval and Le Conte. Canad. Ent., 32, **1900**, 91.
—— A new genus of Lycænidæ hitherto confounded with Catochrysops. Entomologist, 33, **1900**, 1–2.
—— The genera Cupido and Lycæna. Entomologist, 33, **1900**, 124–125.
—— The type of Thecla, *Fabr.* Entomologist, 33, **1900**, 168.
—— On a small collection of insects, chiefly Lepidoptera, from Nicaragua. Entomologist, 33, **1900**, 189–191.
—— On sexual differences in the wing of the house-sparrow (Passer domesticus). Zoologist, 4, **1900**, 74–75.
—— A revision of the butterflies of the genus Zizera represented in the collection of the British Museum. Zool. Soc. Proc., **1900**, 104–111.
—— On two consignments of butterflies collected by Mr. Richard Crawshay in the Kikuyu Country of British East Africa in 1899 and 1900. Zool. Soc. Proc., **1900**, 911–946.
